Re: Holiday Regulation R04.06.141

Governance and staff reviewed the proposed regulation change turning spring break into Chancellor’s Day and have no opposition. There were several who voiced interest in keeping the holiday on the last day of spring break still, no matter what it may be called, and we hope to encourage the chancellors to continue that practice.

Other feedback from staff revolved around the personal holiday day for exempt staff. They wondered why that is not mentioned in regulation. While it seems that may have been a one-time benefit, if it is not, the regulation should be adjusted to reflect the status of personal holiday days for all.

Thank you for the opportunity to provide feedback.
