

Minutes for Academic History
June 11, 2007

Attendees: Peter Sommers, Diane Meador (UAS), Patrick Tilsworth (SW), Colleen Abrams, Brigitte Mayes (UAF), Lora Volden (UAA)

1. Talked about new number of curriculum in SGASTDN. Any issues

We talked about what reports could be affected by the new rules. SHR9OMM and SGR2MJR pull from SGASTDN records. Both reports need to be looked at and changed to report all the curricula that are attached to a student. I, Peter, am going to write a task request to have the reports looked at and changed.

2. Add a link to web grading under Faculty Services for incomplete grade contract.

Lora wanted to see if it is possible to add a hyper link in the web grading portion of Faculty services. Patrick said this is possible but it would be easier if we linked to one form. So we are posting our MAU's incomplete contract for review to come up with a generic contract that all MAU's can use.

Other Items

1. Lora wanted to revisit the confirmation for web grading for faculty. She came up with the idea of having a status that shows at the front page for grading that states Grades Rolled, Grades submitted, and Missing Grades. This will give Faculty immediate feedback regarding grading and hopefully end phone call to records office asking if grades were received. Lora is writing this task request with Patrick's help.

2. Colleen would like to add parameters to SORLCHG. This report is used to look at and track change of major for students. Colleen ran the report as is and got a couple million results. She suggested adding Campus, ID, Level, and College. I, Peter, am going to write the task request for this one.
