

**Minutes for Academic History  
November 19, 2007**

Attendees: Peter Sommers, Barbara Hegel, (UAS), Colleen Abrams, Brigitte Mayes (UAF), Lora Volden , John Allred(UAA) Matt Sweeny

1. Change Outcomes on SOACTRL from "Warning" to "Fatal"

We decided to change the warnings in SOACTRL to Fatal. This was done to prevent admitting new students to expired degree programs. We decided that if there is a special case where a student needs to be entered we can temporally change the controls and admit the student. Colleen will change the warning.

2. Add a new code to SHADEGR

Anchorage wanted to add a new code to SHADEGR to indicate late applications. Both UAA and UAS saw no problem in adding the new code. Laura will write the task request.

3. Additions to SHR9OLL

The UA system no longer uses SHR9OLL instead we now use SHRROLL. We decided that we would like to report to include campus and section, and we would like to have a subject added to the report parameters. In addition we would like Statewide to investigate why the report shows students more then once, Fairbanks has found that there seems to be a correlation between the number on times the student appears on the report and how many SGASTDN records they have. We would like each student to appear only once. I, Peter, will write this task request.

4. Create an all encompassing Graduate Transcript level.

We decided that instead on one all encompassing level that we would create three graduate levels, one for each campus. The new levels are AG, FG, and SG. We decided that this rout is more convenient for each MAU.

Added Items,

1. Barbara wanted to talk about the clearing house reports. Fairbanks needed to finish testing.
2. Lora would like the FW code in registration post the "W" grade with the roll process done at night. Both UAS and UAF said they would like to wait before approving this. They would like more information regarding what process does the automatic roll. Lora said she would look in that. This item will be discussed further at our next meeting.

Next meeting: Monday December 3, 2007 at 1:30

Phone number is 1-800-893-8850 pin 6384637
