Attended by;

Agenda.

1. UAA would like an OK from everyone regarding adding the AGTC code to STVATTS. Adding the AGTC code will allow the graduate schools to track additional information in DegreeWorks. UAF and UAS approved UAA to add this code.
2. UAS would like an update regarding SHRRPTS (repeat course report). As of the last communication the title are showing but are too short to read. Jane informed the team that there is a programmer still working on this issue. His time is split between a couple different projects.
