

Minutes for Academic History team meeting, August 9, 2010

Attended by;

UAS: Peter, Barbara, Diane

UAA: John, Patty

UAF: Anita, Colleen

SW:

Agenda.

1. Approval from UAF and UAA to the updated SHRRPTS report from LRGP to PROD

UAF and UAA have not had a chance to test the update. Both UAF and UAA are going to try to test before Thursday August 12 in order to try and have the statewide programmers move the fix before the end of term. Approval for the move will sent via the list serve.

2. UAS wanted to know what is UAA and UAF's policy regarding how long placement test scores were valid. And if they do expire how do they plan on expiring test scores for the purposes of prereq checking.

After some discussion it appears that three MAUs have the same policy that English and Math scores are valid for two years. However, there seemed to be some miscommunication regarding what each MAU wanted for the math placement test. At this time the discussion is tabled until September when faculty return. We will send this to the reg team to discuss how long math test scores should be valid. Once all the MAUs are using the same time line John has a script that can be run to inactive, by changing the test code in SOATEST, inactivating the students test scores for the purpose of prereq checking.

Next meeting date is August 23, 2010
