

Minutes for Academic History team meeting, September 20, 2010

Attended by;

UAS: Peter, Barbara,

UAA: John, Patty

UAF: Anita, Colleen

SW: Mary, Jane

Agenda.

1. All three MAUs would like to see UA receive AP and CLEP Scores electronically and loaded into SOATEST

John called College Board to find out if it is possible to receive these scores electronically. I also called and received information about how to set up our system to receive these scores. I also found out that there are scores available to receive electronically if we want. The information has been sent out our next step is to look at the test and assign values to SOATEST if none exist already.

2. Needed to review our task requests.

We have three task requests still pending.

- A. Incomplete In-Progress courses not reporting on transcript requests. UAA filed this request, and stated that it still happens infrequently. They have a work around and are ok removing this request.
 - B. Concurrent Curricula/Third minor for reports. We want to leave this task request as is. No change
 - C. Clearing house report. This was completed and not updated on the list.
- After our review we should have only one task request currently active.

Next meeting date is October 3, 2010
