When course is deleted in SHATCKN, Banner now removes the grade for that course in SFASLST, which leaves in-progress course on student's record unless registration is changed. (Susan)- Susan- checked LRGP again after recent upgrade, still removing the DF grades in SFASLST; this was never the case before the upgrade- used for Student Clearinghouse when transcript hasn't been received from the student; no changes are made in SFAREGS; also a case, 699 and 698- changes to their registration and switch them over (close to 10 years of record) – always done the changes in academic history. Need to get this fixed – Mike- I wonder if this is something Ellucian changed? Susan- Anything after March the change took effect. No changes has been made prior to January. 698 have deferred grades in academic history and it's the actual course is changing per Susan. *Melody- will check with Ellucian to see if this was a change?*

1. UAS student with one NG course. Could not order a transcript through UAOnline. (Mae) Melody to report. Makes sense- we are all comfortable with this setup and no need to change the script.

Email sent out today to WT from Melody: The bwsfavow.sql program has the following code that may be preventing the student from getting a transcript. He's being blocked because he doesn't have any hours greater than 0. They only get forwarded if the hours are greater than zero.

-- 11/03/2011 sxgac added logic to calculate transcript-eligible course hours

-- level gpa table

```
SELECT SUM(shrlgpa_hours_attempted) + SUM(shrlgpa_hours_earned) + SUM(shrlgpa_gpa_hours)
  INTO lgpa_hours
  FROM shrlgpa, shr2tlg
 WHERE shrlgpa_pidm = pidm
    AND shrlgpa_gpa_type_ind = 'I'
    AND shrlgpa_levl_code = shr2tlg_levl_code
    AND shr2tlg_2tlg_code IN ('FE','SE','AA','AX','VX');
```

-- term gpa table

```
SELECT SUM(shrtgpa_hours_earned) + SUM(shrtgpa_gpa_hours)
  INTO tgpa_hours
  FROM shrtgpa, shr2tlg
 WHERE shrtgpa_pidm = pidm
    AND shrtgpa_gpa_type_ind = 'I'
    AND shrtgpa_levl_code = shr2tlg_levl_code
    AND shr2tlg_2tlg_code IN ('FE','SE','AA','AX','VX');
```

Lindsey- Attachment feature to be uploaded by the student has been turned on at the testing environment.

Lindsey checked with Joe to see if email orders can be tweaked at. Not certain if it is possible to tweak at this

time. We would like to see the email orders to reflect orders with attachments and for which campus. Can forms be uploaded into Parchment by user at the admin site (Susan)- Lindsey will check with Joe.

Pending Business

1. TR 184 – Nightly grade roll. UAA, UAS and UAF have all confirmed this process is not working in PROD. Matt is researching to determine why as time allows. [This is only specific to withdrawals- Not working- Matt's to-do list. Parchment](#)
 - a. Sync testing environment to mimic production – with Melody Sayles
 - b. Update expedited processing paragraph on main ordering portal page to indicate expedited shipping isn't included – with Joe
 - c. Add primary campus description to order options page (“Primary campus: Select the campus at which you’ve completed a majority of your coursework and/or earned your most recent degree.”) – with Joe
 - d. Joe is researching why the numbers he reported for January don’t match the billing statement.
2. TR 198 – Special characters. With Joe Knox/Jane to add additional characters to the process.
3. TR 257 – Add .dat parameter to SFR2CLH. Approved for top 15 by BST.
4. Displaying start and end dates on UAOnline unofficial transcript (Mae) – pending with Jane
5. 150% Direct Loan Legislation reporting changes
 - a. October 1 deadline
 - b. Tables in which we’ll enter program length coming in June

Melody- There are changes to the transcript forms in LRGP for workability- Finance wants to do a Finance Fusion upgrade. Jane wants us to make sure the transcripts forms are working. Test through Banner- test in Parchment also. Melody says yes. Tested this morning received another student’s record. Should have been caught in LRGP refresh. Jane hopes by the end of the week for testing! We will try.- Primary Campus selection – Mae order transcripts for a student with no UAA records and selected UAA as primary campus (results showed that transcripts was received, not the student info from original request); Primary campus indicates who gets the revenue and Mae thought it would flag students with the primary campus if student does not have records with that campus; Lindsey will check with Joe if this is how it should be behaving. Wait to hear from Jane to test!

Might meet on the 13th
