ADMISSIONS WORK TEAM AUDIO
Monday July 21, 2008
MINUTES

CALL IN NUMBER 1 (800) 893-8850
PARTICIPANT PIN 6384637

Attendees:
UAA-Peggy
Kenai-
Kodiak-Jenny
Mat-su-Sandy
UAF-Libby, Caty, Crystal
UAS-Barbara, Deema, Amanda
SW-Mike, Mary (still here!), Melody

Agenda:

1.   **PIA action items review list and prioritize**-Libby (reminder to complete MJ's evaluation)

Attached is the condensed version of what we covered during the PIA that will assist in our conversation at today's BST. My goal is for us to talk through the eleven items and discuss the "what's next" for each. Do each of them seem feasible for us to move forward with in the next 12 months as we've stated we would? Did we hear details that either nix or indicate we should reconsider certain ones? Or???

Mary

Do we still want to pursue these 4 Admissions items-Would like to pursue the auto-decisioning and rating system
Can we realistically pursue this in a 12 month period? F2F? Competing priorities?
Variables in LRGP? Has been approved-LSI_Student_Manager class Peggy and Patty will begin on this will keep us informed on the progress-others may join in
Item 2 not applicable to UAA or UAS   UAF may look at if/when BEMS comes up-2 yrs for now ?
*Item 1 and item 3 will be placed on our 12 month list

Common matching-MJ to provide coding to help with layering? Mary will follow up and report back

2.   **Teach grant Percentile scores**-Mike/Libby

Tests that *can* be used for TEACH are standardized, nationally-normed tests, including:

ACT
SAT
GRE
GMAT
Miller Analogies Test
MCAT
LSAT

We would need percentiles loaded for each of these tests (and subscores as well) whenever they are available in the data source files.

National and local percentiles available-should consider entering both

SAT and GRE percentiles currently loading
Working on the load process for others-Crystal G to submit task request to BST for a modification to srtload to push the act percentiles

If you are manually entering scores in soatest-enter percentiles on the percentile tab

3.   **SGASTDN records and scholarship eligibility/financial aid disbursement**-Mike

How are sgastdn records created by each campus?
UAF-creates sgastdn-fin aid does not pay based on the admit code AI or SI in saaadms
UAA-admits on saaadms then manually changes sgastdn to admit pending-when item comes in to clear-change/update sgastdn record to reflect degree status
UAS-admit on saaadms-show pending degree status on sgastdn-then code on saadms when final item arrives and over ride sgastdn record.

Mike-Financial aid can pay or choose not to pay based on codes on saaadms No need to manually change sgastdn records to update.

Admission pending code on sgastdn is causing many students to not be considered for scholarships

4.   **Request to edit the web app waiver screen**-Peggy

See Peggy's suggestions-screen shot sent to the Admissions list today
Melody, we'll need a task request?

5.   **Review residency form/process** -Questions or problems?

WUE? How does each campus determine? UAF-If a freshman from a wue state and you have high school transcript then approve If conflicting info in file ask for proof or further clarification UAS does the same.
Policy statement regarding residency? Mary needs feedback from all campuses.

Next Meeting Monday August 4 @ 10:00am
