1. *SFAREGS/SGASTDN-double charging account after admissions update*  
Contact Sungard-is this a known issue? Changes to finance that would cause this to happen?  
No other campuses have noticed. Libby will talk with Jane about this.
2. *Request to increase OnBase timeout from 30 min to 60 min*  
Team agrees that this would be a good idea and would like the 60 minute time frame
3. *Testing for clean address*  
Crystal is conducting most testing and communicating to Runner Technologies. When tab through address is checking being done? Does a name change show? Will notify group when ready for full testing. Recruit, UA and FA addresses will be affected.
4. *Test score updates and IB scores*  
ACT offering more fields on tape loads. ACT now offering to bring in race/ethnicity values but they fill in the wrong field in banner. Need to point to correct field and also determine how to break down the Alaska Native groups. Task request? Need a plan for test scores updating on the programming side. Do we really need a t.r. each time the score format is updated?  
UAF would like to start recording IB scores on SOATEST. Okay with the group. Libby will add scores and score ranges to SVTESC.
5. *Re: Admis-L: Defect CMS-DFCT102031 Web applications, submit SR to SungardHE*  
Patty will contact Sungard regarding the fix that should have been in the 8.0 package.  
THANK YOU PATTY!
6. *When will students be prompted to update admission?*  
5 year rule allows students to be active, but there is no way to collect new contact information. Include summer? Update phone number and address online. Based on last activity date of when a student did an update or confirm.
7. *OnBase download when we go live on the 25<sup>th</sup>?*  
*If you use Active X, you'll need the plug-in. Most likely will be pushed out to machines before we go live on Monday the 25<sup>th</sup>. More info to come.*

**NEXT MEETING WILL BE MONDAY NOVEMBER 1st @ 10:00am**
