

MINUTES
ADMISSIONS WORK TEAM

Monday, May 7, 2012
10:00 am

Attendees:

UAA-Patty, Peggy
Kenai-Shelly
Kodiak-Jenny
Mat-Su-Fran
UAF-Kara, Libby
UAS-Deema
SW-Jane

1. Banner Pain Points list:

5 digit major rule problem-allow curriculum major rule codes for quick start (SORCMJR_CMJR_RULE) to utilize any curriculum major rules (currently limited to a curriculum major rule that is set to 4 digits)

Web for prospect inquiry form

Recruit record only picks up major not degree and college

Can only select one major of interest

Need to allow student to select as many areas of interest as possible

Web application process needs a complete overhaul-to include but not limited to:

Need more functionality for the end users-currently need programming intervention

Selecting a Concentration on web applications needs improvement-very difficult

Antiquated and outdated-not user friendly for students

Also not user friendly for those creating web apps

Difficult to add text or instructions

Have to use the question functions to display instructions to the student which makes it look like a question that the student should answer

No control as to how the questions are laid out

Need flexibility to display degree programs on or off based on term or allow the ability to display a program based on term (ie some programs only accept applications for fall, but you can't turn it on for fall and turn it off for spring)

Instead of global term-allow user to have specific term applied to a specific program

Need ability to turn major off by date when programs have a deadline that differs from the general application deadline

There's not a way to delete old application info (it's remembered from previous app) so in the case of emergency contact info

Signature page/confirmation page-students should be able to print these out for their records

SOAHSCH-shift f6 erases the screen on SOAPCOL you have to shift f6 and then F10.

Need the ability to query from the temporary web application tables

In SAAADMS when you insert record and duplicate, not all of the fields are duplicated

SPAIDEN-emergency contact

Student should have the ability to attach goals statements, resumes, unofficial transcripts to application when applying through ssb

Students should be able to pay for web applications using DEBIT CARDS!

NEXT MEETING Monday May 21, 2012 @ 10:00am
