1. *Admitting to future terms and how we code in SGASTDN*-This causes problems in degree works. Any MAU accepting a student should put the other MAU in the secondary (or third, fourth, etc.) on sgastdn when coding the admission. Even for those who are graduating. We need to look at Degree works ability to look at the current term first and future term second. Additional question is the students who appear active in programs they are not pursuing anymore.

For now agree to be more careful and to continue any additional programs on sgastdn even when student plans to graduate with that degree. We will be relying on the graduation/degrees departments at each campus to clean up sgastdn accordingly. Will check back to see how it's going. UAF will communicate this to their graduation department.

SAAERUL will not allow you to apply for the same program a second time. Need to investigate this

2. *Request to make changes to the SAR2ADM report*
Peggy will submit a task request
3. *Error messages at UAOnline when completing web application*-will discuss at our next meeting
4. *AA_GLOBAL_2009 matching rule*
Is available in LRGP for testing. Peggy would like to get this in as soon as possible
5. *Solution for UC1T, UC2T problem*
Programming staff have completed this task request and put this in LRGP for testing. We will test when LRGP is available and reply to SW
6. OnBase Upgrade and validation
7. *New Admission Code (AL) financial aid limitations*
The team had no problem with Peggy creating this new code

Next Meeting is Monday June 18 @10:00am
