

MINUTES
ADMISSIONS WORK TEAM

Monday, July 30, 2012
10:00 am

Attendees:

Mat-Su-Fran
UAA-Charese, Peggy
UAF-Crystal, Kara, Libby
UAS-Deema
SW-Jane, Mary, Isabelle

1. Reports that are pulling from old ethnicity fields
49 Admissions pop selects and the following reports: SAR2ARS, SAR2TBL, SFR2ESR

Check any pop sels that you may have created under Admissions. Also see Mary's task request # 101

IPED's no duplication-aggregated the data into one race, more than one race and unknown.

If student reports more than one race, reports first any Alaska Native, then other catagories after that.
IE if student reports Native American, black and Asian, Native American is counted first.

Isabelle will share her code with Jane.

2. Coding double majors from two colleges
IE FFMTBS CHEM and FFEMBS CIVL
Can't add CIVL as the second major b/c it's attached to the EM college not the MT college. How to deal with this?
UAA coding them in two degrees
UAS also coding into two degrees
To be discussed at Academic History today @ 1:30.

Follow-up:

Discussed this at the Acad Hist meeting today. UAA also turns off the fatal warning long enough to put the second major in and then turns the warning on again. Not sure that there is any alternative at this time. Hopeful that there is a solution in Banner 9.
