Reviewed enrollment RX project. New application for admission. Program is written in sales force. A point and click program. Editing is easier. Information processed outside of Banner and then pushed into. Cost is per application. Dynamic application. What campus? Second question based on what you select. Can upload resumes and other documents. CRM piece allows you to put a notification of admission in the student portal the minute you admit them in Banner. Can search for ID once you've created one. How is it tied to Banner?

UAF considering late charge for applications that are submitted after the deadline.  
UAS no plans for additional fees.
