Agenda:

1. Changes to residency form- 4 credits or less don't need to submit residency form-Mary
Mary will get the original from Libby and send out as a draft to the team.

2. Update on variable field that Charese created (*third_party_ID)-Fran

Fran tried it out, it works great. Might add this to the checklist. GUAPARA screen – third party ID variable. Pulls it right in, works well.

3. ALEKS test – UAA is not using/accepting that test. Please encourage students to take the accuplacer test if they are considering attending UAS/UAA. Crystal will work on getting this information out (again). The ALEKS test is a non-proctored test, \$25 charged to the students UAOnline account. ALEKS is used only for placement, not admission. Discussion about requesting a message be put at the link informing students that it is used for UAF only. Not a checklist item.
