V.   BST Report

The CCS catalog and schedule search restructure task request have been started on.

It looks like Banner 7.5 will be put in sometime in October.

Banner 8 has been delayed until March 4 of 2010. Date of the BSF2F is being worked out (possibly 2/8-2/12, but this is not firm).

The CCS TR for adding a DUPL code to SCADETL has been moved to be one of the top priorities; things that we have "got to have before Banner 8." This will not affect the completion of TRs already at stages 3 or 4, but once they are completed our TR will be one of the first to take their place.
