Present: Melody, Julie, Robbie, and Crystal

Agenda:

1. Prospective Portal
 - a. Have you met with your CMS?
 - b. When will channels be created for the portal?
 - c. Banner Enrollment Management Software
 - d. Robbie, Portal Update – Follow-up with Rory, and at this point still with Sungard regarding proposal for programming.
2. Web 4 Prospect
 - a. Any updates?
 - b. Clean Address update:
3. EMAS –
 - a. UA Scholar Bridge
 - b. Bridge update: None
 - c. Task Request Prioritization:
 - d. Any other general updates?
 - e. Teach Grant/test Score uploads – see email below. SRATPFD form to see what fields are identified. We don't have access to in PROD, will check LRGP. Crystal will see if she can find field layouts for ACT and SAT test scores. Questions about Accuplacer and Praxis. Will talk to Mike and see if these need to be included. Crystal mentioned in the past percentiles were entered as a separate line item, not on the percentile tab.
 - f. EMAS Conference summaries from Crystal, Julie and Robbie – talked about some of the sessions we all went to. Liked the look of EMAS Online and Campaign. Talked about some restructuring at UAF with dismantling the telecounseling area and moving more to counselor assistants, but the telecounseling session still had some good tips. Robbie was impressed with EMAS 9 reporting features. Julie had some ideas about generic ids for students, really liked the training session, really liked the EMAS administration sessions and got some good ideas on how to expire codes.
4. Melody Update:
5. Other items/updates
 - a. Test Plan for Banner Upgrades

Coming up with a test plan for recruiting side – web4prospect, bridge files, tape loads.

I sent this previously to the Admis- list, but wanted to send to Recruit as well.

Dear Admissions & Recruit folks:

You have most likely heard some rumors about the new TEACH grant authorized under the HEA beginning in 2008-09. Full information on this grant is available at <http://www.studentaid.ed.gov/PORTALSWebApp/students/english/TEACH.jsp>

The financial aid team is currently discussing the details of how the grant will be administered at UA and will publish policies & procedures soon.

One of the qualifiers for the grant will have some business impact on your area, so I wanted to get you this information ASAP:
One way that a student can qualify for teach is by scoring above the 75th percentile on a standardized, nationally-normed college admissions test. This would include ACT, SAT, GRE, GMAT and possibly others.

I have spot-checked and it seems that we get percentiles with some tests (or some of the batteries of the tests) but they are not always reported (or are not loaded into Banner).

As the students' eligibility will depend on percentiles, rather than raw scores, we need to be sure that the percentiles are entered whenever they are available. /If the percentiles come with the file from the testing agency, they need to be pushed into Banner./ If the percentiles are included on a paper score report, they need to be hand-entered onto SOATEST.

Can someone verify for me that the test score load processes *do* push the percentile information, if it is received?

Thanks, and I will give you more information as it becomes available.
