Recruit Audio
01-20-2009
2:00 – 3:00
Audio # 1-800-893-8850
Audio code 3178469

Present: Leesa, Peggy, Jane, Crystal, Julie, James.

Agenda:

1. Prospective Portal
     a. Have you met with your CMS?
     b. When will channels be created for the portal?
     c. Banner Enrollment Management Software –
     d. Robbie, Portal Update

2. Web 4 Prospect
     a. Any updates?
     b. Clean Address update: February go live date, messages for student could be confusing (Range error, etc). Have not heard the new Clean Address version has been uploaded. Concern over messages that student will see and how the Clean Address process will work for MA/RC addresses. Jane will get some information from James. Feb 8th hopefully for production, load to LRGP/PREP Friday Jan 23rd, 2 week test period.

        Will put in Self Service in PREP and LRGP, to see what student will see. Can have it active in Banner without Self Service. Not sure if SRRPREL will use Clean Address during the "push" process.

     c. Ethnicity Codes – see note below – Crystal is still seeing the old ethnicity codes in the current bridge file. Jane was not sure if cleanup has been done in Banner for old codes. We will monitor to see if ethnicity codes in our stdimprt file remain or become blank, at which point we will need to decide if we need to do a task request to have that information exported, or if we do not consider it a priority to correct.

3. EMAS –

     a. UA Scholar Bridge – Update from Melody – See update from Jane below.

     b. Bridge update:

     c. Task Request Prioritization:

     d. Any other general updates?

     e. EMAS Face–to–Face.

4. Jane Update: UA Scholar modification is on hold until Melody is free. Not sure of time estimate for when Melody will be free. Task request link is http://bweb4lrgp.alaska.edu/banlrgp/owa/bwsk2rqs.P_DisplayRequests.

5. Other items/updates

     a. Test Plan for Banner Upgrades – With Banner 8 upgrade coming in October 2009, this will become more critical. All EMAS coordinators should start listing out processes/screens used on

a regular basis, and we will come up with a game plan for coordinating testing of the new Banner as it relates to our recruiting screens.

Coming up with a test plan for recruiting side – web4prospect, bridge files, tape loads.

Email from 01/05/2009

Julie et al,

You may find the attached document helpful.

You'll find all the old ethnicity values in STVETHN; all the new "Race" codes are in GORRACE.

Mike

Jane,
Are the new ethnicity codes live in PROD? Do you have a list of what the new codes are?
Thanks
Julie C Staveland
UAS EMAS Coordinator

This is an email thread that Melody and I have been having about the
ethnicity changes.   Please read from the bottom up to get a brief
understanding of the thread.   Please let me know if you have questions and
what action you would like to take.   Thanks.   - Jane

Subject: Re: FW: Ethnicity Changes

Also EMAS people may want to (add a field for Race) or (rename the old ethnic to Race and create a new Ethnic). They have very few columns left to add data to be imported to the EMAS databases. Their call. Melody

Melody Sayles wrote:

The programmers don't have the interface to EMAS on their systems, only EMAS people. The bridge references 'spbpers_ethn_code' without any translations (line 3119 in srr2be1.sqr). It would need to be changed to the SPBPERS_ETHN_CDE. EMAS people (Crystal, etc) would need to be notified to look at their Access macros and EMAS databases to see if there are any repercussions from changing the code value. Melody

Jane Vohden wrote:

I looked through SRTLOAD. I don't know how to look through EMAS. Would you please double check both of those for problems with the ethnicity changes? And if I'm available - I would like to learn how the interface with EMAS works. Thanks. - Jane
