

Recruit Audio
March 2, 2010
2:00 – 3:00
Audio # 1-800-893-8850
Audio code 3178469

Present: Crystal, Julie, Peggy

Agenda:

Testing Banner 8

UAA scores seemed to be ok. Accuplacer is still having some issues. All other processes seem to work just fine.

UAF scores load ok, other than the percentiles for ACT not loading when they load to PROD.

Main Issue:

Long names/addresses coming out into EMAS and getting truncated.

Check with Education systems about extending field lengths. If that is not a possibility, then send email message to Mary and Jane requesting priority task request modification to the bridge process to accommodate the long fields per the comment that Rory made at the Face 2 Face that modifications could be made to processes because of longer fields.
