

EMAS Work Team Audio
2012-12-04
10:00 – 11:00am

Audio # 1-800-893-8850
Audio code 3178469

Present: Winston, Julie, Crystal

Agenda:

EMAS 9 Updates–

UAA is live with EMAS 9 as of this week. Outside vendor to send mail – standard imports to catch up. Currently running 9.0.75.

UAS running with EMAS 9 for a couple of months. Have to upgrade to a newer version of 9 – queries acting weird.

UAF – still working on upgrade – based on UAS's recommendation will go to at least version 9.0.761

Banner Updates – Discussed how we get web app status from SAAADMS and what happens in EMAS for market segments. UA Scholar plan discussion.

Banner Testing – Anyone done any testing for Oracle 11g? Crystal will be doing a full test plan, Winston will check with Patti to see if he needs to do anything, everyone will check their imports.

Web 4 Prospect Updates – No updates from anyone – UAF and UAA have separate web inquiry form. UAA has email sent to general address, UAF has Google form. Discussed if we still want the UAOnline form, agreed we still probably want that, but needs some work.

Clean Address Updates –

Agenda Items for Face to Face:

HS School District Name Requests

Bridge comparison differences between UAA, UAF, and UAS

Financial Aid Task Request – status and discuss what we want to do.

Data Fixing – impacts on EMAS 9 – high school codes

Expanding out to other departments/schools outside of Admissions

Retention Pro – All coordinators agreed it looked nice. Banner has the data but getting to it is the problem. Retention Pro has nice feature to be able to import data into any fields.

Talked a little about importing and date formatting.

Next regular meeting would be Dec 18, 2012. Group agreed that next meeting can be canceled – so our next meeting will be January 15, 2013.
