# 2021 Virtual Site Visit

Tara Borland and Brenda Konar  
Alaska NSF EPSCoR All-Hands Meeting  
February 8, 2022

---

# Reporting and site visit timeline

---

# 2021 Virtual Site Visit Recommendation 1

Both research components should

- a. Create a flowchart explaining how models will be used, including how data from the research will be used to implement and validate the models
  - b. Link each model to the appropriate research questions and explain model testing and validation
  - c. Describe the modeling study design for each research question
-

---

# Response to Recommendation 1

- Under development by Coastal Margins and Boreal Fires researchers
- First draft being assembled this week
- Due to NSF March 11

---

## 2021 Virtual Site Visit Recommendation 2

Provide an updated Diversity Recruitment and Retention plan, including

- a. Leveraging recruitment networks at the national level
- b. Broader recruitment, engagement, and outreach efforts
- c. Potentially adding a community liaison to the External Advisory Council

---

## Response to VSV Recommendation 2

- Draft response shares DEI faculty hiring plan based on UA guidelines
  - includes details on recruitment and hiring processes and retention efforts
- Response also addresses recruitment and retention for students and staff
- Currently recruiting a community liaison position for EAC

---

Thanks to everyone for their help!!!

- Any questions?
