Human Resources is making improvements to the HR System, benefits and procedures to better serve employees. This is an update on projects currently in process. Our projects are a team effort. As we improve our processes, we communicate with those directly impacted throughout. To see previous versions of this communication please go to the Human Resources web page: http://alaska.edu/hr/whats-new-at-statewide/index.xml.

**Process Improvement Projects and Tasks**

**Standardization of FML processing**
The Employee Transitions and Benefits team is continuing the work to improve and standardize the processing and tracking of Family Medical Leave across the UA system. This includes assessing current processes, establishing common tracking methods and new streamlined processes to implement new tools to collect and manage FML requests efficiently and securely.

*Update as of 5/28/2020:* The team is continuing to manage the Emergency Family and Medical Leave Expansion Act (EFMLEA) leave with the FML process. The request form has been created in NextGen, with validation being done by staff from general counsel and the president’s office. Additional data fields have been requested for the portal and HR Systems is working on that request. The next step will be to complete the functional testing of the FML portal prior to full implementation.

**UAS Timesheet Feed for Facilities**
The HR Information Systems group is working with the UAS IT and Facilities to create a timesheet feed directly to Banner for payroll processing. This will allow UAS Facilities to use their existing work order system for tracking worked hours and eliminating the need for double data entry of hours.

*Update as of 5/28/20:*

Testing has been delayed due to lack of internal IT and HRIS resources. HRIS must wait until OIT has refreshed the Banner database (BANQ) which is scheduled for June.

**UAS HR Coordinator Consolidation**
UA HR is working with UAS Leadership to develop a service hub to provide HR Coordinator services to Juneau Campus departments and employees. The staff in the hub will work full-time to assist and support departments allowing specialization in HR processes. This will decrease the number of FTE spent by department personnel in HR functions.

*Update as of 5/28/20:*

A new HR Coordinator for the UAS campus has been hired and started May 26. HR is training the new Coordinator and they will soon start to take on more of the HR Coordinator duties in the near future.
**Personnel Process Alignment:** Historically, each campus has had their own process for setting up and making changes to employee data. UA HR is currently reviewing those differences and proposing a more streamlined approach that addresses consistency, efficiency and compliance requirements. As changes are identified, notification is being sent out to the HR Coordinators across the respective campuses.

*Update as of 5/28/20:* The team is working on finalizing new hire checklists for all employee classifications by April 6th.

**UA HR Website**
A project plan is in place to develop one UA HR webpage. The Project Team has been assembled and have been meeting weekly. The team is continually working with each area of HR to ensure the new webpage will help better serve the customers.

*Update as of 5/28/20:* The Project Team has met with all directors. The Contact Page has been updated. The Benefits page is close to going live. We are reviewing content one more time, and will begin testing soon. LEE has the structure and most of the content. Talent Acquisition and the HR Coordinator page has the structure built, and is working on adding content. OIT is assisting HR with the development of the website.

**Job Change Reasons**
The Operations Team is reviewing and updating the Job Change Reasons Codes to reflect current best practices. Verifying what approvals/documents are required and when, for each Job Change Reason with each e-class.

*Target completion date is end of May 2020, pending final review & approvals from HR Leadership.*

**NextGen Payroll Form Implementation**
A number of NextGen Payroll forms have been implemented in the last month which has facilitated the working from home processes. These forms have enabled more efficient processes between employees or departments and payroll by reducing printing and scanning of paper documents. This month we are working with HR Payroll and UAA Parking to institute a NextGen form for employee parking deductions.

**NextGen Accounting JV Implementation**
Statewide Financial Services has been working on implementing a NextGen form to simplify Journal Voucher processing. The new process will allow the preparation, approvals, keying and OnBasing of JV’s to be done completely online. This eliminates printing and scanning of these documents. In addition, it allows one JV to include hundreds of entries. Previously multiple JV forms would have to be processed for JV’s with more than 16 entry lines. HR Accounting will begin using this process the week beginning May 26.
**Required Projects and Tasks**

**Decommissioning of Banner 8**
There are multiple items that need to be completed system wide prior to moving entirely over to Banner 9 and decommission the use of Banner 8.

*Update as of 5/28/20:* We are conducting testing of the remaining B9 pages HR needs to fully adopt before B9 is complete. Issues with two of the five pages were identified and Morphius, the subcontractor for Ellucian, is in the process of applying fixes to new versions of these pages. Once new versions of the pages are received, if issues have been resolved, we can migrate them to the Production instance of Banner.
