University of Alaska Banner Transition 2018

UA is upgrading to Banner 9 October 2018

Since May of 2017, staff have been preparing for a major shift in Banner, the software utilized for all financial, student services and human resources transactions. All user groups will be utilizing the new Banner 9 platform by October 29, 2018. After December 2018, Banner 8 will no longer be supported by the software vendor Ellucian.

Training opportunities

Training in Banner 9 is being offered face-to face, online and via on-demand video. Martin Miller, the system enterprise application trainer, is providing online and in-person sessions. See reverse for a more detailed schedule of OIT trainings. If these sessions fill up, more will be added. Choose the method that works best for you.
