\* Note that some campuses may be printing most days of the week during the student refund period, which is around the start of each semester.

1. Please call the campus directly if you are going to run over your allotted time slot.
2. Please call Financial Systems at 907-450-8050 if you would like to run checks at a different time. Financial Systems will need to check the tables to make certain you are the only one running checks at that time.
