

JOB FAMILY CONCEPT

This family consists of four levels of safety work. Levels are distinguished based on the complexity of the work, level of supervision received, and the degree of autonomy. Safety services positions carry a higher consequence of error than other job family groups in that these positions have the ultimate accountability and responsibility for protecting life and property. This job family is distinguished from other job families by the primary responsibility for crime prevention, enforcing the University policies, thereby protecting life and property.

This family provides expertise and guidance in several areas including:

- Protection of life and property
- Crime prevention
- Training
- Staff supervision
