Opening Student Trends
Fall 2024

University of Alaska is the state's system for providing higher education, with three distinct, accredited universities. UA empowers Alaska, delivering relevant programs that qualify graduates to work in 90 percent of job occupations in the state.

Fall 2024 trends and highlights are below, followed by year-over-year headcount, student credit hour (SCH) and program majors by academic unit, campus and university (p. 2). Opening data represents activity about four weeks after the start of the semester; final, closing Fall 2024 semester information will be available in January 2025.

Opening Enrollment

As of Fall 2024 semester opening, 18,777 students had registered for 172,120 fall semester student credit hours (SCH), system wide - a more than 4 percent (7,000) increase in SCH with about the same student headcount as observed in Fall 2023. See the Appendix (p. 3) for context on recent UAA business practice changes impacting enrollment trends, along with normalized information demonstrating growth in for-credit headcount and student credit hours between Fall 2023 opening and Fall 2024 opening. The number of degree-seeking students grew almost 4 percent (500) from last year, with nearly 14,300 majors pursuing a program leading to a degree, certificate or other credential in Fall 2024.

Closing Projections

More than nine out of ten students who will eventually enroll by December have registered so far, accounting for an estimated 97 percent of closing Fall 2024 SCH. Another 1,700 students are anticipated to enroll in short and late-start courses by the close of Fall 2024 for a projected closing headcount of nearly 20,500, a decrease of approximately 1 percent from Fall 2023 closing. Student credit hour registration is expected to increase roughly 4,500 SCH by the end of the term, reaching almost 176,600 SCH, up 3 percent from Fall 2023. See the Appendix (p. 3) for context on relative for-credit enrollment trends.

Fall 2024 Highlights

- Alaska Performance Scholarship recipients attending UA grew by 22% (~400 people) compared to this time last year (Table 11, p. 13)
- Based on opening levels, course registration is projected to reach 176,000 student credit hours by the close of Fall 2024, up more than 3 percent from Fall 2023 closing. This is a four-year high. (Table 7, p. 9)
- Full-time students grew 5% in the last year, +400 students from Fall 2023 to Fall 2024 opening (Table 3, p. 4)
- Students enrolling in pursuit of an undergraduate or graduate degree increased by more than 500 over last fall, up 3.6% to about 14,300 total in Fall 2024. (Table 1, p. 2)
- About 250 additional first-time freshmen enrolled this fall compared to 2023, reaching 2,485, 11% increase. (Table 6, p. 7)
- Freshman-to-sophomore retention is at a seven-year high, with almost 7 out of 10 (68%) Fall 2023 first-time, full-time freshmen returning to a UA campus in Fall 2024. (Table 12, p. 14)
- Dual credit/middle college - nearly 2,390 dual enrollment students have enrolled in the first month of the school year, up about 14% (more than 300 students) year-over-year from last fall; additional significant dual enrollment will continue over the next eight months. (Table 15, p. 17)

[1]Represents unduplicated number of students taking at least one course from the entity reported. *Headcount and SCH trends for UA system, UA Anchorage, Anchorage Campus, Prince William Sound College and the UAA School of Education are impacted by the transition of some for-credit courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information. Headcount includes auditors; SCH do not. Students often take courses from multiple academic units, campuses and universities at the same time. [2]Excludes non-degree seeking students. Data are normalized for current organizational structure.

Note: Reporting level headcount is unduplicated. Academic Organization headcount totals add up to more than university totals and university headcounts add up to more than the system total. This occurs because it is common for students to be concurrently enrolled at multiple academic organizations and/or multiple universities in the same semester. Therefore, some students would be double counted if headcounts were summed across academic organizations and universities. Headcount, represented in the above table, includes students who audit credit courses. *Headcount trends for UA system, UA Anchorage, Anchorage Campus, Prince William Sound College and the UAA School of Education are impacted by the transition of some for-credit courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information.

A full-time undergraduate student is enrolled in 12 or more credit hours (SCH). A full-time graduate student is enrolled in 9 or more SCH. Classification of full-time and part-time status excludes audited SCH. Students are categorized into one of three levels:

1) Part-time at the university and system level;

2) Full-time at the system level but part-time at the university level (indicated by inclusion in the 'UA full-time' headcount); or

3) Full-time at the system and university levels (indicated by inclusion in the 'university full-time' headcount).

For example:

1) An undergraduate enrolled for a total of 12 SCH, 9 at Troth Yeddha and 3 at Anchorage, would be included in the UA full-time count for UA Fairbanks and the UA full-time count for UA Anchorage.

2) An undergraduate enrolled for a total of 15 SCH, 12 at Juneau and 3 at Troth Yeddha would be included in the university full-time count for UA Southeast and in the UA full-time count for UA Fairbanks.

3) A part-time student is included in the part-time counts at each university where the student is enrolled.

*Headcount trends for UA system and UA Anchorage are impacted by the transition of some for-credit courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information.

A full-time undergraduate student is enrolled in 12 or more credit hours (SCH) and a full-time graduate student is enrolled in 9 or more SCH. Classification of full-time and part-time status excludes audited SCH. Students are categorized into one of three levels:

1) Part-time at the system level and thus part-time at the campus/university level; or

3) Full-time at the campus university level and thus full-time at the system (indicated by inclusion in the 'Full-time Campus/University' headcount).

For example: An undergraduate enrolled for a total of 12 SCHs, 9 at Troth Yeddha and 3 at UAF CTC, is included in the full-time UA system count for Troth Yeddha and the full-time UA system count for UAF CTC. An undergraduate enrolled for a total of 15 SCHs, 3 at Anchorage and 12 at Kodiak is included in the full-time campus/university count for Kodiak and in the full-time UA system count for Anchorage. A graduate student enrolled for a total of 6 SCH, 3 at Juneau and 3 at Troth Yeddha, is included in the part-time counts at both campuses/universities.

*Headcount trends for UA system and UA Anchorage are impacted by the transition of some for-credit courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information.

Note: *Figures have been restated for Fall 2020, Fall 2021 and Fall 2022 semesters to align with current reporting practice for individuals self-identifying with at least some Filipino heritage; historical counts for Hawaiian Native/Pacific Islander and Asian groups were updated as a result. Reporting level headcount is unduplicated, therefore, some students would be double counted if headcounts were summed across AOs and/or universities. Each student voluntarily reports demographic information. Figures are unduplicated and count individuals self-reporting at least some indigenous heritage in the Alaska Native/American Indian category. **Headcount trends for UA system are impacted by the transition of some for-credit UAA courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information.

Note: Student class standing is derived from the number of credit hours a student has completed. Students who have not attended postsecondary after high school graduation are categorized as "First-time" during their first semester of enrollment regardless of how many credits they have earned. In subsequent semesters, individuals who have earned less than 30 credits are categorized as Continuing Freshman, those who have earned 30-59 credits are Sophomores, etc. Reporting level headcount is unduplicated and university headcounts may add up to more than the system total. This occurs because it is common for students to be concurrently enrolled at multiple universities in the same semester. Therefore, some students would be double counted if headcounts were summed across universities. Headcount includes students who audit credit courses. When reporting at the university level, degree-seeking status for students enrolled at multiple campuses within a university is counted only once and is classified by the student's highest degree status in the university. Degree status at the system level for students enrolled at multiple universities is counted only once and is classified by the student's highest degree status within the system.

Students with UA degree-seeking (UA DS) status are pursuing a degree at a university other than the one at which they are taking courses. Non-degree seeking (NDS) students are not pursuing a degree at any campus within the UA system.

*Headcount trends for UA system and UA Anchorage are impacted by the transition of some for-credit courses administered in Banner in 2023 to non-credit courses administered in a different student information system in 2024 - see Appendix for additional information.

Note: Reporting level headcount is unduplicated. Academic Organization headcount totals add up to more than university totals and university headcounts add up to more than the system total. This occurs because it is common for students to be concurrently enrolled at multiple academic organizations and/or multiple universities in the same semester. Therefore, some students would be double counted if headcounts were summed across academic organizations and universities. Headcount, represented in the above table, includes students who audit credit courses. Concurrently enrolled high school students are not counted as UA Scholars.

New Paid - UA Scholars who received a UA Scholar distribution for the first time in the reported term.

Other Enrolled - Paid Scholars who received a distribution in at least one semester prior to the reported term as well as any enrolled student who has received a UA Scholar distribution in the past but who is not receiving a UA Scholar distribution in the reported term and any enrolled student who is in the eligibility period following his or her UA Scholar recruit term but who has not yet taken a UA Scholar distribution.

Note: A student is deemed retained if they register for credit in the fall semester subsequent to their initial enrollment. Retention rates are computed at two levels: the individual university and the UA System level. The university retention rate represents students who were retained at their initial university of enrollment, and the UA System level retention rate represents students retained at any university within the UA System in the following fall. University cohorts are identified based on class standing, full-time status, and degree combination at the respective university. The UA System cohorts are determined based on class standing, full-time status, and degree combination at the system level.

Note: Reporting level headcount is unduplicated. Dual enrollment refers to enrollment at the university by a student who is simultaneously enrolled in a K-12 (or homeschool) for which the student may receive credit at both the K-12 and post secondary levels. An individual student may be enrolled at more than one university. Only K-12 students who are dual enrolled are counted in the above figures, once at each university and once at the system. APPENDIX.   UAA Banner For-Credit Course Transition to Genius Non-Credit - Impact & Normalized Trends, Fall 2023 to Fall 2024 Opening

Throughout this report package, year-over-year course registration trends for the UA system, UA Anchorage, Prince William Sound College, Anchorage Campus and the UAA School of Education are impacted by recent UAA business practice refinements. Between Fall 2023 and Fall 2024, UAA reclassified select for-credit courses to non-credit status and transitioned these out of Banner to a separate information system, Blackboard Genius. Impacted UAA courses included all 500-level, for-credit Professional and Continuing Education (PACE) courses as well as one Industrial Technology - Hazwoper 24 Hour (ITEC A101) course section delivered by Prince William Sound College. The majority of UAA non-credit course activity is managed via information systems other than Banner and is not centrally available at this time for aggregate system level reporting.

The information presented below highlights the contribution of the Industrial Technology and the PACE courses in Fall 2023 and highlights a normalized headcount and student credit hour year-over-year trend for each impacted unit after these courses are removed. Counting apples-to-apples, normalized trends show headcount and student credit hour growth between Fall 2023 and Fall 2024 after removing courses that are no longer delivered for-credit from the Fall 2023 baseline.
