REVENUE/EXPENSE					
Instruction (thousands)	Instruction - total expenses is the sum of all operating expenses associated with the colleges, schools, departments, and other instructional divisions of the institution and for departmental research and public service that are not separately budgeted. This would include compensation for academic instruction, occupational and vocational instruction, community education, preparatory and adult basic education, and remedial and tutorial instruction conducted by the teaching faculty for the institution's students.	Finance	F1617_F1A	F1C011	Instruction - Current year total
Research (thousands)	Research - total expenses is the sum of all operating expenses associated with activities specifically organized to produce research outcomes and commissioned by an agency either external to the institution or separately budgeted by an organizational unit within the institution. The category includes institutes and research centers and individual and project research. This function does not include nonresearch sponsored programs (e.g., training programs).			F1C021	Research - Current year total
Student Services (thousands)	Student services - total expenses is the sum of all operating expenses associated with admissions, registrar activities, and activities whose primary purpose is to contribute to students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instructional program. Examples include student activities, cultural events, student newspapers, intramural athletics, student organizations, supplemental instruction outside the normal academic program (remedial instruction for example), career guidance, counseling, financial aid administration, and student records.			F1C061	Student Services - Current year total
Scholarships (thousands)	Scholarships and fellowships - total expenses is the sum of all operating expenses associated with scholarships and fellowships treated as expenses because the institution incurs an incremental expense in the provision of a good or service. Thus, payments, made to students or third parties in support of the total cost of education are expenses if those payments are made for goods and services not provided by the institution. Examples include payments for services to third parties (including students) for off-campus housing or for the cost of board provided by institutional contract meal plans. The amount of expense in this function is the total of all institutional scholarships reduced by the amount that is classified as discounts and allowances.			F1C101	Scholarships - Current year total
Tuition & Fees (thousands)	The amount of tuition and required fees covering a full academic year most frequently charged to students. These values represent what a typical student would be charged and may not be the same for all students at an institution. If tuition is charged on a per-credit-hour basis, the average full-time credit hour load for an entire academic year is used to estimate average tuition. Required fees include all fixed sum charges that are required of such a large proportion of all students that the student who does not pay the charges is an exception.			F1B01	Tuition and Fees total for academic year
Government Grants (thousands)	Federal operating grants + State operating grants			(F1B02 + F1B03)	Federal operating grants, State operating grants

Private Grants (thousands)	Local/private operating grants and contracts are revenues from local governmental and nongovernmental agencies and organizations that are for specific research projects or other types of programs and that are classified as operating revenues. Examples are research projects and similar activities for which amounts are received or expenditures are reimbursable under the terms of a grant or contract.	Finance	F1617_F1A	F1B04	Local/Private operating grants
All Grants as a % of State Appropriations	Federal G&C + State G&C + Private G&C / State Appropriations			(F1B02 + F1B03 + F1B04)/(F1B11)	Federal operating grants, State operating grants, State appropriations
State Appropriations (thousands)	State appropriations are amounts received by the institution through acts of a state legislative body, except grants and contracts and capital appropriations. Funds reported in this category are for meeting current operating expenses, not for specific projects or programs.			F1B11	State Appropriations
Local Appropriations (thousands)	Local appropriations, education district taxes and similar support are amounts received from property or other taxes assessed directly by or for an institution below the state level. It includes any other similar general support provided to the institution from governments below the state level, including local government appropriations.			F1B12	Local appropriations, education district taxes, and similar support
Public Service Total (thousands)	Public service - total expenses is the sum of all operating expenses associated with activities established primarily to provide noninstructional services beneficial to individuals and groups external to the institution. Examples are conferences, institutes, general advisory services, reference bureaus, and similar services provided to particular sectors of the omunity. This function includes expenses for community services, cooperative extension services, and public broadcasting services.	Finance	F1617_F1A	F1C031	Public service - Current year total
Academic Support Total (thousands)	Academic support - total expenses is the sum of all operating expenses associated with activities and services that support the institution's primary missions of instruction, research, and public service.			F1C051	Academic support - Current year total
Institutional Support Total (thousands)	Institutional support - total expenses is the sum of all operating expenses associated with the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development.			F1C071	Institutional support - Current year total
Operations Maint of Plant Total (thousands)	An expense category that includes expenses for operations established to provide service and maintenance related to campus grounds and facilities used for educational and general purposes. Specific expenses include: janitorial and utility services; repairs and ordinary or normal alterations of buildings, furniture, and equipment; care of grounds; maintenance and operation of buildings and other plant facilities; security; earthquake and disaster preparedness; safety; hazardous waste disposal; property, liability, and all other insurance relating to property; space and capital leasing; facility planning and management; and central receiving. This expense does include amounts charged to auxiliary enterprises, hospitals, and independent operations. Also includes information technology expenses related to operation and maintenance of plant activities if the institution separately budgets and expenses information technology resources (otherwise these expenses are included in institutional support).
