

# Spring 2025 Course Registration, Revenue and Applications

## 8 Weeks Before First Day of Instruction

### November 19, 2024

The following is a brief, initial summary of Spring 2025 semester enrollment activity as of Tuesday, November 19, 2024.

Figures have been normalized relative to the first day of instruction for spring term, and all information is considered very preliminary two months ahead of the start of instruction.

Year-over-year course registration trends reported for the UA system, UA Anchorage, Prince William Sound College, Anchorage Campus and the UAA School of Education are impacted by recent UAA business practice refinements\*. For more information about course registration changes by campus and academic unit, see page 2.

#### **Applications and Admission**

Almost 4,180 applications have been initiated by prospective students for admission in Spring 2025, up approximately 2 percent (86 applications) from Spring 2024, year-over-year. Compared to this time last year, the number of applications initiated by first-time, prospective students decreased by about 12 percent (147) at UAA, grew by just over 60 percent (206) at UAF, and decreased about 31 percent (32) at UAS. For additional information, see pages 4 and 5.

#### **Course Registration**

As of November 19, there were 8,200 students registered in 83,274 student credit hours (SCH) for Spring 2025, representing growth of 1 and 2 percent over last year, respectively. At UAA, 4,570 students registered for 45,815 SCH, each about 1 percent lower compared to Spring 2024. UAF headcount increased 4 percent, with 3,219 students registered, to-date. UAF SCH registration reached 32,073 SCH year-over-year, an increase of about 7 percent. At UAS, student headcount was the same as last year at this time, with 675 students registered for courses. UAS SCH registration decreased by approximately 2 percent from last year to 5,386 SCH. See page 2 for additional course registration trends by academic unit.

#### **Billed Tuition and Fees - Estimated Revenue**

Net tuition and fees billed to students for Spring 2025 totals \$31.9M, currently, up 1.7% (\$0.5M) from last year at this time overall. Nearly 80 percent of the increase (\$0.4M) was associated with growth in billed fee revenue. More than 70 percent of billed net tuition and fee revenue is from direct undergraduate and graduate level tuition, with another 21 percent and 16 percent generated by course fees and student fees, respectively. Additional tuition and fees detail by university and revenue category is available on page 3.

---

*\*UAA recently reclassified select for-credit courses to non-credit status, as well as transitioning 500-level, for-credit professional development courses to a separate student information system, Genius, designed for professional development students. As of Spring 2024 opening, these courses constituted 11 and 6 percent of UAA and total UA System headcount, respectively, as well as 3 and 2 percent of UAA and total UA System SCH, respectively.*
