

# Preliminary Course Registration and Admission Activity, Spring 2025

## Week 5 of Instruction

### February 10, 2025

This is a summary of Spring 2025 semester activity as of Monday, February 10, 2025; trend figures are normalized relative to the first day of instruction for Spring term. Students enrolling in short and late start classes will continue to drive additional enrollment until the end of the term.

Year-over-year course registration trends reported for the UA system, UA Anchorage, Prince William Sound College, Anchorage Campus and the UAA School of Education are impacted by UAA business practice refinements<sup>1</sup>. For more information about course registration changes by campus and academic unit, see page 2.

#### **Closing Outlook**

Student credit hour registration is projected to increase about 4 percent (6,700 SCH) over last year, reaching nearly 170,500 SCH by the end of term. More than 2,750 additional students are anticipated to enroll by the close of Spring 2025, for a total headcount of about 21,060 students, a decrease of approximately 2 percent (440 students) from Spring 2024.

At this point, about nine out of ten students who will likely enroll by the end of Spring 2025 have registered, accounting for more than 95 percent of Spring 2025 student credit hours (SCH). Refer to pages 5 and 6 for graphs displaying historical and current course registration patterns for headcount and SCH, respectively.

#### **Course Registration**

As of February 10, 2025, 18,305 students had registered for 163,145 Spring semester credit hours, system wide. This represents a 3 percent decrease in headcount (515 students) and a 4 percent increase in student credit hour registration (6,060 SCH) from the levels observed this time last year. UAA student headcount decreased about 7 percent (777 students) and student credit hours grew just over 2 percent (1,853 SCH) compared to last year. UAF student headcount was nearly 3 percent higher (196 students) and student credit hour registration was 6 percent higher (3,368 SCH), year-over-year. UAS headcount was almost 3 percent higher (51 students) and student credit hour registration increased about 7 percent (839 SCH) compared to this time last year.

More than four percent of registered students (759 individuals) are taking classes concurrently at multiple universities within the system this semester. See page 2 for additional detail about underlying student headcount and student credit hour changes by academic unit and campus.

#### **Admissions**

New applications and admissions for degree seeking program majors are largely complete for the Spring 2025 semester. More than 3,280 students were accepted for admission in Spring 2025, up approximately 9 percent (260 individuals) from this time last year. About 57 percent of applicants admitted to undergraduate programs and 81 percent of those admitted to graduate level programs have elected to enroll. For additional information by university and student group, see pages 3 and 4.

*Information quantifying the revenue resulting from tuition and fees, net of student aid, will be developed and included in future reports.*

---

<sup>1</sup> Starting in 2024, UAA reclassified select for-credit courses to non-credit status, and they are no longer reported in Banner. As of Spring 2024 opening, these courses accounted for 11 and 6 percent of UAA and total UA System headcount, respectively, as well as 3 and 2 percent of UAA and total UA System student credit hour registration, respectively.

Note: Information is preliminary. Includes all for-credit course registration activity. Non-credit courses and courses administered in other student information systems other than Banner are not included. \*Year-over-year course registration trends reported for the UA system, UA Anchorage, Prince William Sound College, Anchorage Campus and the UAA School of Education are impacted by recent UAA business practice refinements. These include reclassification of select for-credit courses to non-credit status as well as a transition of 500 level, for-credit professional development courses to a separate student information system, Genius, designed for professional development students. As of Spring 2024 opening, these courses constituted 11 and 6 percent of UAA and total UA System headcount, respectively, as well as 3 and 2 percent of UAA and total UA System SCH, respectively. Spring 2024 semester instruction began Tuesday January 16, 2024 and Spring 2025 semester instruction began Monday January 13, 2025. Comparable dates relative to each university's weeks to start of instruction are reported, and if not available the closest comparable date is selected. Registration for Spring 2025 semester started November 1, 2024 at UAA and November 4, 2024 at both UAF and UAS. Registration for Spring 2024 semester started November 3, 2023 at UAA and November 6, 2023 at both UAF and UAS. Headcount is unduplicated at the reporting level. Data is provided by UAA, UAF and UAS, extracted at 5 pm on the report date from UA information systems.

Note: Information is preliminary. All applications recorded by each university are considered; some students apply to multiple programs and sometimes to multiple UA universities. Applications initiated by an individual may be pending information or may be complete and ready for consideration. Application/Acceptance count and Program Major count is unduplicated at the reporting level; summing over distinct university level counts may add to more than the system total because of double counting. To be counted as an enrolled program major, a student must have enrolled at the university delivering the program they were accepted into. Registration for Spring 2025 semester started November 1, 2024 at UAA and November 4, 2024 at both UAF and UAS. Registration for Spring 2024 semester started November 3, 2023 at UAA and November 6, 2023 at both UAF and UAS. Spring 2024 semester instruction began Tuesday January 16, 2024 and Spring 2025 semester instruction began Monday January 13, 2025. Comparable dates relative to each university's weeks to start of instruction are reported. Data is provided by UAA, UAF and UAS, extracted at 5 pm on the report date from UA information systems.
