## Summary: Graduation Rates

Graduation rates in UA's four-year programs are still above the national average for public open admission institutions, although dropping slightly from all-time high levels observed in FY21. The FY23 graduation rate for first-time, full-time freshman seeking any undergraduate degree was 36.6 percent, representing an increase of about 16 percent over the FY16 rate of 31.5 percent (Table 202a).

Graduation rates in UA's two-year or shorter programs have grown considerably in recent years. The proportion of first-time, full-time freshman who pursued and earned a degree 2-years or less in length within 3 years grew significantly over the last seven years - from less than 17 percent in FY16 to an all-time high of almost 29 percent in FY23 - representing an increase of more than 70 percent (Table 2.02b). The proportion of indigenous first-time, full-time freshman who pursued and earned a degree 2-years or less in length within 3 years has increased 116 percent since FY16, reaching an all-time high of almost 19 percent in FY23 (Table 2.02b1).

Students receiving the UA Scholars award have higher graduation rates than other student aid recipient groups. First-time, full-time UA scholars seeking a bachelor's degree, and earning any undergraduate degree, graduate at a higher rate than any other group of students. Examining just the last three fiscal years, FY23, FY22, and FY21, 58 percent, 64.3 percent, and 63.9 percent of students earned any undergraduate degree in six years (Table 202a). Comparatively, the overall graduation rates for UA students were 38.4 percent in FY23, 42 percent in FY22 and 45.6 percent in FY21 (Table 202c).

Compared to similar institutions nationally, UA students are more likely to graduate. The national six-year baccalaureate graduation rate for students enrolling at public, four-year, open admission institutions was 28.6 percent in FY20. The rate for UA students at that time was about 36.9 percent, nearly 29 percent higher than the national rate (Table 2.02a). The most recent published national six-year baccalaureate graduation rate of indigenous, degree-seeking students enrolling at public, four-year, open admission institutions was 15.5 percent in FY20. For indigenous students attending UA, 18.8 percent of those pursuing a bachelor's degree graduated within six years (FY20), about 21 percent higher than the national average at similar institutions (Table 2.02a1).

FY23 (Enter Fall 2017)	33.6	35.9	35.0	38.1	36.8	39.4	36.6

The most recently published national six-year baccalaureate graduation rate for students enrolling at public, four-year, open admission institutions was 28.6 percent in FY20. About 36.9 percent of students pursuing a bachelors degree from UA graduated within six years, 29 percent more than the national average for similar institutions.

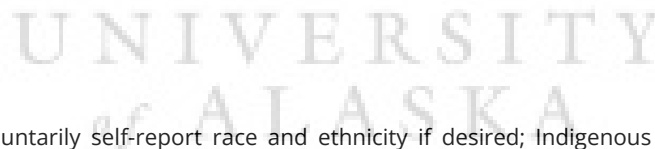

Last updated 09/19/2023. Graduation rates are calculated at two reporting levels, the university level and UA System level. University level graduation rates represent whether or not a student graduated from the same university they initially entered, while UA System level graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. University cohorts are determined based on student class standing, full-time status, and degree combination at the university level. The UA System cohorts are determined based on student class standing, full-time status, and degree combination at the UA System level.

FY23 (Enter Fall 2017)	16.5	19.1	23.2	24.4	32.4	32.4	21.9

The most recent published national six-year baccalaureate graduation rate of indigenous, degree seeking students enrolling at public, four-year, open admission institutions was 15.5 percent in FY20, 18.8 percent of students pursuing a bachelor's degree from UA graduated within six years, about 21 percent higher than the national average for similar institutions.

Last updated 09/19/2023. Students voluntarily self-report race and ethnicity if desired; Indigenous students self-report at least some Alaska Native and/or American Indian heritage. Graduation rates are calculated at two reporting levels, the university level and UA System level. University level graduation rates represent whether or not a student graduated from the same university they initially entered, while UA System level graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. University cohorts are determined based on student class standing, full-time status, and degree combination at the university level. The UA System cohorts are determined based on student class standing, full-time status, and degree combination at the UA System level.

UNIVERSITY  
of ALASKA

Last updated 09/19/2023. Students voluntarily self-report race and ethnicity if desired; Indigenous students self-report at least some Alaska Native and/or American Indian heritage. Graduation rates are calculated at two reporting levels, the university level and UA System level. University level graduation rates represent whether or not a student graduated from the same university as he or she initially entered, while UA System level graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. The university cohorts are determined based on student class standing, full-time status, and degree combination at the university level. The UA System cohorts are determined based on student class standing, full-time status, and degree combination at the UA System level.

UNIVERSITY

Last updated 09/19/2023. Developmental refers to courses that provide basic or supplemental preparation for introductory college courses. Developmental courses are available in several areas, with those in math and English making up the majority taken. Developmental coursework is not applicable to transcribed certificates or to associate, baccalaureate, or graduate degrees, even by petition. A developmental course is one that has a course number from 050 to 099. Graduation rates are calculated at two reporting levels, the university level and UA System level. University level graduation rates represent whether or not a student graduated from the same university as he or she initially entered, while UA System level graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. The university cohorts are determined based on student class standing, full-time status, and degree combination at the university level. The UA System cohorts are determined based on student class standing, full-time status, and degree combination at the UA System level.

UNIVERSITY  
of ALASKA

Last updated 09/19/2023. Students voluntarily self-report race and ethnicity if desired; Indigenous students self-report at least some Alaska Native and/or American Indian heritage. Graduation rates are calculated at two reporting levels, the university level and UA System level. University level graduation rates represent whether or not a student graduated from the same university as he or she initially entered, while UA System level graduation rates represent whether or not a student graduated from any university in the UA System. A student is counted the first time they receive a degree and if multiple degrees are earned in one year, the highest degree is selected. The university cohorts are determined based on student class standing, full-time status, and degree combination at the university level. The UA System cohorts are determined based on student class standing, full-time status, and degree combination at the UA System level.
