## Summary: Retention Rates

The retention rate measures the proportion of first-time, full-time students enrolled in the Fall who return the following Fall. University-level retention tracks students who re-enroll for credit at the same university the following Fall, while UA System-level retention tracks those who re-enroll at any university within the system.

Over the last five years, the retention rate for freshmen seeking any degree increased from 66.4 percent to 68.0 percent (Table 1). During this period, the retention rate for Indigenous students seeking any degree decreased from 55.3 percent to 51.4 percent (Table 2). According to recent nationwide data, 59.1 percent of students at four-year, public, open-enrollment institutions who started in Fall 2021 returned in Fall 2022 (NCES 2023¹). In comparison, the UA System's retention rate for the same period was 64.4 percent overall (Table 1), and the overall Indigenous retention rate was 52.3 percent (Table 2).

In four-year programs, 73.6 percent of bachelor-seeking freshmen were retained from Fall 2023 to Fall 2024, a 0.5 percentage point increase from the previous year, reaching a five-year high (Table 3). For Indigenous students at the bachelor's degree-seeking level, the retention rate from Fall 2023 to Fall 2024 was 55.9 percent, an 8.1 percentage point decrease from the previous year (Table 4).

In two-year programs, 59.4 percent of associate degree-seeking freshmen were retained from Fall 2023 to Fall 2024, 2.4 percentage points higher than the previous year's rate (Table 5). Retention rates for associate degree-seekers are at ten-year highs at UAA and UAF, but have decreased at UAS. The retention rate for Indigenous associate degree-seeking freshmen remained stable at 48.7 percent, a slight increase from 48.4 percent the previous year (Table 6).

The retention rate for students seeking certificates or occupational endorsements increased by 6.2 percentage points to 33.7 percent between Fall 2023 and Fall 2024 (Table 7). During this period, Indigenous freshmen seeking certificates or occupational endorsements had a retention rate of 31.0 percent, a 20.5 percentage point increase from the previous year (Table 8).

The retention rate for Pell Grant recipients seeking any undergraduate degree reached 62.7 percent at the UA System level, a ten-year high. Pell Grant recipients seeking a bachelor's degree had a retention rate of 69.4 percent, also a ten-year high (Table 9). The retention rate for Indigenous Pell recipients seeking any undergraduate degree decreased by 1.8 percentage points, from 48.1 percent to 46.3 percent in the last year. Indigenous Pell recipients seeking a bachelor's degree had a retention rate decline of 3.7 percentage points over the past year, bringing the current rate to 50.7 percent (Table 10).

The most recently published national retention rate for students enrolling at public, four-year, open admissions institutions was 58.7 percent in FY22.

Note: A student is deemed retained if they register for credit in the fall semester subsequent to their initial enrollment. Retention rates are computed at two levels: the individual university and the UA System level. The university retention rate represents students who were retained at their initial university of enrollment, and the UA System level retention rate represents students retained at any university within the UA System in the following fall. University cohorts are identified based on class standing, full-time status, and degree combination at the respective university. The UA System cohorts are determined based on class standing, full-time status, and degree combination at the system level.

The most recently published national retention rate for students enrolling at public, two-year institutions was 61.0 percent in FY22.

Note: A student is deemed retained if they register for credit in the fall semester subsequent to their initial enrollment. Retention rates are computed at two levels: the individual university and the UA System level. The university retention rate represents students who were retained at their initial university of enrollment, and the UA System level retention rate represents students retained at any university within the UA System in the following fall. University cohorts are identified based on class standing, full-time status, and degree combination at the respective university. The UA System cohorts are determined based on class standing, full-time status, and degree combination at the system level.
