=====

Agenda:

Task requests:

. SCP2UPC Task request – Colleen Abrams

Update active SCBCRSE records with the new college/division/department code as requested.

* Still needs the current version tested. UAF will work on this and at least one other campus needs to also.

. SCP2??? Task Request – Patty Itchoak

Task request to remove special permission codes when they are set to the requested code.

* Request was that the special permission request field allow multiples.

* Patty will submit this task request to the BST for approval at their next meeting.

. Enlarge display of subject codes on schedule lookup pages in UAOnline – Linda Kay Davis

* This task request was approved and will be sent to the BST for approval at their next meeting.

New Items

* Date change on the part of term field within SSASECT is not working. Patrick will look into it and get back to us.

* Patrick sent a message about an RPE for allowing the change of instructional method without having to drop all the students and then re-register them. It appeared on the information that he sent that it had been included in Release 7.2 but it is not working. Patrick will research this and then respond back to us.

Next meeting: May 11, 2006 at 10:30am
