Task requests: *None pending*

Test Results: *Thank you for all your 7.3.1&2 testing.*

### Items:

From: Mike Campbell <[snmdc@alaska.edu](mailto:snmdc@alaska.edu)>

Hello.

Last December I sent out a list of proposed dates for the student freezes of the coming summer, fall and spring semesters. Having received no objections, I'm locking them in. The dates are:

Term	Description	Date
200702	Summer Close	Monday, 10Sep07
200703	Fall Open	Thursday, 27Sep07
200703	Fall Close	Thursday, 17Jan08
200801	Spring Open	Wednesday, 13Feb08
200801	Spring Close	Monday, 02Jun08

The above dates fall in the same relative positions in the semesters as the previous year's extract dates.

---

*Please have a look at the 7.3.3 notes to see if there are significant improvements we want to make a case for, per Patrick's message below:.*

From Patrick: 7.3.3 release has come out. If interested in the upgrade, give a business case to Statewide.

We just completed production upgrades to version 7.3.2.

Sungard released version 7.3.3 on 5/31/2007. The schedule for this upgrade has yet to be determined. I've published the Release Guides in the normal area. Links below take you directly to the docs.

\*Student 7.3.3\*:

[http://www.alaska.edu/as/banner/docs/new\\_guides/student/student70303rg.pdf](http://www.alaska.edu/as/banner/docs/new_guides/student/student70303rg.pdf)

Summary -

Object:Access Oracle 10g Updates

Performance problems existed for Object Access (O:A) views in Oracle 10g due to redundant selects and outer joins. The views have been changed to eliminate these issues.

*Concurrent Curricula Technical Updates*

Improvements have been made to views used with Concurrent Curricula processing to reduce redundant logic. A new package is delivered for use with curriculum and field of study data and order calculation.

*User Interface Updates*

Improvements have been made to the user interface for various forms with the addition of checkboxes, radio groups, and navigation tabs.

\*Student Self-Service 7.3.3\*:

*Summary - Only Problem Resolutions*

\*Faculty Self-Service 7.3.3\*:

[http://www.alaska.edu/as/banner/docs/new\\_guides/student/facss70303rg.pdf](http://www.alaska.edu/as/banner/docs/new_guides/student/facss70303rg.pdf)

*Summary - Only Problem Resolutions*

Discussion:

Slow response time in SSASECT: *Last week Jeff experienced delays as long as 45 seconds per entry key for the instructor block, while doing a large group of classes. He will report this to [sdsit@alaska.edu](mailto:sdsit@alaska.edu).*

Face2Face meeting *will be Oct 22-25. Colleen is on the planning team; please forward any suggestions to her. It was appreciated that the Catalog and Schedule agendas were planned on adjoining days last year; Colleen said they will try to cluster groups again to save time and travel costs. Lora expressed UAA's interest in Open Learning, requesting a F2F session for that again this year.*

Dates: Refreshed clone LrgP June 4. Next refresh Oct 1.

Next meeting: Thurs. July 19, 2007, at 10:30am

-jan

*P.S. We wish Mae Delcastillo well in recuperating from her accident, and we'll make sure her desk is piled high for her return. ☺*
