

Catalog/Schedule Work Team Minutes

Thrs. Dec. 6, 2007 - 10:30am

Audio-conference number 1-800-893-8850, conference code 6384637

Attendees: [UAF](#): Colleen Abrams, Mae DelCastillo; [UAA](#): Linda Davis, Sarah Hill, Charese Gearhart-Dekreon, Registrar John Allred; [UAS](#): Jan Crichton, Jeanny Wharton; [SW](#): Patrick Tilsworth

New Task Requests

- *TR# 3A, 3B From Linda:* to include the SCATEX Department Text under the subject heading on UAOnline

Members agree this is needed as we continue to emphasize the online over the printed schedule and needs to show on UAOnline. Patrick explored implementation logistics of exactly how and where to post the text in light of the planned multiple campus choice. Colleen suggested using the college code value followed by the text for each college. Discussion of separate or joint results listings. Patrick will work with this in conjunction with development of the new search structures already approved (see TR# 1,2,3 below).

Approved by CCS and will be forwarded to BST for approval.

- *TR# 4A, 4B, 4C From Linda:* for "or concurrent enrollment" coded in SCAPREQ to show in the prerequisite on UAOnline Class schedule, Classes to add, and Catalog.

Members agree this is necessary for accurate advising and informed registration in UAOnline. It does load correctly in print, so Patrick thinks this may be relatively simple in comparison to the restructured searches. If so, he will do this first, since the searches are more involved.

Approved by CCS and will be forwarded to BST for approval.

- CCS Team priorities for Task Requests:

1. TR# 4A, 4B, 4C (see above) "or concurrent enrollment" *IF* it is quick and simple relative to the other requests as expected.
2. TR# 1, 2, 3 (see below) the restructured search of Catalog, Class schedule, and Classes to add.
3. TR# 3A, 3B (see above) to include SCATEX department text in the subject header on UAOnline.
4. TR# 6 (see below)
5. TR# 8 (see below)

Task requests for UAOnline approved by BST 9/20 (not in LrgP yet). Status:

Patrick will prepare static html pages, and will post them to the CCS list for approval before these go to the programmers. After approval of the html's, they will be built in LrgPrep.

TR#1 non-secure Catalog search

TR#2 non-secure Class Schedule search

TR#3 secure Look-Up Classes to Add search

TR#6 Remove redundant "College, Division" from Catalog search

TR#8 Remove "Display" links from Student Records, add Catalog link to Registration.

Next meeting:

Next scheduled CCS meeting Thr Jan 3, 10:30am.
