

Catalog/Schedule Work Team Minutes

Thrs. Mar 27, 2008 - 10:30am

Audio-conference number 1-800-893-8850, conference code 6384637

Attendees: *SW: Patrick T; UAF: Mae D, Colleen A; UAA: Linda D, Charese G, Sarah H; UAS: Jeanny W, Jan C.*

Task Requests

New TRs

- **TR#9** UAOnline Catalog prereq's and coreq's copied forward to Catalog Entries page, from the secondary Detailed Course Information (DCI) page.

From Linda K Davis emailed 3/6.

Addresses only non-secure Catalog. The group decided to make no change to the secondary page (DCI), as it also includes other info such as restrictions, to keep mods minimal, and to request that the coreqs and prereqs be copied to the first page "Catalog Entries".

NOTE: *We forgot to consider during our meeting the possibility of making this adjustment only to UAA and PWS courses (only course numbers beginning with A or V). This would make sense, as UAF and UAS prereqs and coreqs already show on both screens (they are coded in both SCADETL as PR# and in SCAPREQ). Changing all MAUs would mean duplicate entries for UAF and UAS courses. Please send comments to the CCS list by Monday 3/31 so we could modify the request before forwarding to BST. Thank you.*

TRs in Testing

- **QAdhoc Section Status**

From Melody Sayles emailed 3/21:

Charese, Your Task Request to add 4 more fields to the Section Status List in QAdhoc is in RPTQ (Prep) for testing. The new fields are: Attendance_Method, Instruct_Method, Session_code and College_Code.

UAA, UAF, and UAS all approve for Prod based on Charese' testing.

TRs in queue

Approved by BST 3/6/08: SSR2DNL Add sort parameters (now also alphabetical, not just subject order) to print class schedules.

Approved by BST 9/20/07 (not in LrgP yet):

Status: *These will follow after priority UA projects such as educational goals.*

Patrick will prepare static html pages, and will post them to the CCS list for approval before these go to the programmers. After approval of the html's, they will be built in LrgPrep.

TR#1 Non-secure Catalog search restructure.

TR#2 Non-secure Class Schedule search restructure.

TR#3 Secure Look-Up Classes to Add search restructure.

TR#8 Remove "Display" links from Student Records, add Catalog link to Registration.

Approved by BST 12/13/07 (not in LrgP yet).

TR#3A, 3B to include the SCATEXT Department Text under the subject heading in UAOnline

TRs in Prod

TR#5 (3/7) SSI2AVL now with added fields and functional queries.

This has been greatly enhanced. Please spread the word to academic and advising areas and show them how to use a few easy queries.

Discussion:

- Syllabus Viewing

Since the url field on SCA/SSASYLB does not work as a direct link, the Reg-L group suggests this work-around:

On SCASLLB or SSASYLB, Use any free-text field such as the Learning Objectives field just below the url field, or the Materials and Technical Requirements field in the next block to just type in the url where the syllabus can be found. Then students can copy and paste the url into their browser.

- Online catalog and schedule options

From Colleen A, emailed 3/21:

Please add a review of the online catalog and schedule options to the agenda for the next week's meeting. There are some conflicts between semesters but I feel this is something that we need to review each semester as our understandings of the system grow and change.

Colleen

We went through the options on SOATERM, Web Processing Controls, and agreed on uniform control sets for Summer and Fall 2008:

In Catalog Search Controls, all are "on" except Search by Schedule Type.

In Schedule Search Controls, all are "on" except Search by Duration (Open Learning Only).

No campus is using Open Learning at this time.

These settings can be adjusted as long as all MAUs agree. Please bring adjustment suggestions to the CCS team.

Dates and reminders:

Banner Prod outage 3/28 6pm to Sun 3/30 8pm with contingent to continue into Mon 3/31.

Class Schedule UAOnline Dates –

2008 03 - View Mar 24, Reg opens Apr 7

2009 01 – View Oct 27, Reg opens Nov 10

LrgPrep next refresh will be 6/2. Prep/LrgPrep were updated to version10 on 2/18.

Prerequisite checking will be migrated 4/3.

Catalog courses built after that date that have a prerequisite, must be coded NPREQ to prevent prerequisite checking. SCADETL> Supplemental> Elem 2> "NPREQ".

Next scheduled CCS meeting Thr Apr 24, 10:30am.
