TRs in Testing

TR#3A,3B Include dept text under subject headings in UAOnline.

Subject headers DH#, or if none found, use STVSUBJ description; by Daniel.

See Daniel's email of 1/7 and 1/14 to please test new version in LrgPrep.

Mae and Jan tested newest version. Jan sent email 1/16 that it functioned perfectly for J campus, but not at all for K or T campus.

TR#11A,11B Workflow: Course Change Notice To Students using SSA2ADM.

Available for testing in Prep only. Please see Robbie S's email of 10/16.

Testing continues. UAA tested before break with good results. Robbie said subsequent changes sent separate emails. All changes except fees are specified. Jan asked that fees also be specified as they are listed in the SSR2ADM report. Robbie said the notice goes out in real time. UAF and UAS have been unable to test further yet due to start of semester.

TRs in queue:

Student task request website:

http://bweb4lrgp.alaska.edu/banlrgp/owa/bwsk2rqs.P_DisplayRequests

TR#1 Catalog, and TR#2 Class Schedule, search re-structure

TR#2 Class Schedule search re-structure

TR#3 Lookup Class to Add search re-structure

TR#8 Add Catalog Display link to Registration instead of Student Records.

TR#9 Catalog prereq's and coreq's copied forward to detailed course page.

A high priority for UAA. Jane will bump this item up from 3 to 4 priority, to move it ahead in the queue.

Acknowledging project loads and a shortage of programmer time, Jan asked Jane about the status of TR#1-3, since they were approved by the BST over a year ago as overall improvements to student service. Jane will follow up on this.

Old Business:

#86_TR_OB_RO Sort Order.doc was on OnBase agenda for 1/13 (see Alicia's email agenda 1/13).

From Linda D emailed 1/7 with Task Request, OnBase sort order:

OnBase filter to view curric files in each subject by course number order, then in chronological order within each course number.

Approved by CCS (Jan UAS, Mae UAF, Linda UAA) and fwd to Alicia for the OnBase agenda Tue 1/13.

Linda was planning to attend OB meeting and will let us know outcome.

New Business: *Held for next meeting as these reps were not present:*

From Diane M emailed 12/18: Schedule Types used to manage duplicate section reg errors (now fatal):

Please add to the next CCS agenda a discussion for extending the list of schedule types.

Colleen believes that a new code might be a means to circumvent the fatal registration error checking on "duplicate" courses, like multiple sections of ED S593. The Registration work team

has agreed to set error checking permanently beginning with registration for the Fall 2009 term.

Reminders:

- Please be careful using Spring/Summer CRNs due to duplicates.
- When using SSR9OLL, set param #07 as "N" to create system-generated CRNs.
- LargePrep refreshed Jan 12.
- Fall 2008 Closing Freeze date: Jan 15.
- Banner-8: LRGP outage Sep 24 2009; PROD outage Oct 29 – Nov 4 2009 (actually Nov 5, 8am).
- BSF2F Oct 19 – 23?
