Catalog/Schedule Work Team Minutes
Thursday, July 15, 2010 - 10:30am
Audio-conference number 1-800-893-8850, conference code 6384637
Sign up for the CCS mailing list at http://lists.uaa.alaska.edu/mailman/listinfo/banner-ccs

Attendees: Anita, Anna, Barb, Charese, Cheryl, Heidi, Jan, Jane, Jeanny, Sarah

I.   Chair's Report
Gathering names and contact information for scheduling face-to-face. Timing still being determined. It looks we've gotten most, if not all, off the names and will now be working on the timing a location. General preference was to have it in Anchorage and to have all of us together. It was mentioned that it might be nice to hold around the same time as the Nordstrom's Half-Yearly Sale…

II.   Banner Issues
TR to modify Gateway extract to include H classes and SI# notes: Another round of modifications has been made by Matthew and Jane with Christen's help. It will need to be pushed to PROD, as before, and we'll need to test it live. All campuses gave approval for change to be moved out of LRGP and into PROD. Jane will let us know when we can take a look at the Gateway for another testing go-around. This one is a little different in that we don't have a testing environment for the Gateway so we have to push things to PROD and actually test live. Jane said she'd try to look into what it would take to get a testing environment for the Gateway and Jan mentioned that Melody had something like that set up at one time.

III.   Old Business
Distance Education – coding for Banner Student. Any updates?
SunGard has been given the scope of work and another brief audio was held to answer any questions they had. The quote was received and Mary is taking a funding request to PMT today and then to ITEC on 7/20. This will include the Banner distance ed coding changes, the changes to UAOnline (being treated as one), and the supplemental data tab DUPL code (duplicate checking) TR.

Sarah will send out the last document that Mary prepared about the changes to SSASECT. Since this document, it the only change has been that the synchronicity attribute will be given its own field (rather than being bundled in with % location based (similar to what we think of as session code now).

IV.   New Business

V.   Adjourn

Next scheduled CCS meeting: July 29, 2010 at 10:30
