

Catalog/Schedule Work Team Agenda
Thursday, September 22, 2011 - 10:30am
Audio-conference number 1-800-893-8850, conference code 6384637

Attendees:

UAF

Barb
Anita
Anna
Colleen

UAA

Gianna
Michael
Charese

UAS

Jan

Statewide

Jane

Note Taker: UAS
UAF
UAA

I. Chair's Report –From last BST meeting

- Getting ready for Banner Student Face to Face. Registration is now open, Alaska Airlines agreed to give discount, and there are hotels lined up at great rate. For more information visit the SES website: <http://www.alaska.edu/student services/bsf2f/>
- UAA will be attending

II. Banner

- SSRROLL – missing DE fields (SS2DIS) – must rerun the SCP2DEC script – in the queue for Sunguard to fix
- SSP2RLL – scapreq to ssapreq roll – in LRGP – please test
- SSRROLL – Anyone have a chance to test this yet? UAS and UAF have both used in Prod for Spring courses and worked fine. SSRROLL is the same in LRGP and PROD

III. Old Business

- Course View Rubric – Fall course schedule will be viewable at UAOnline two weeks prior to registration (1st Monday in April)
- F2F agenda items – anything to add? Added Class Schedule Search Page Layouts

IV. New Business

- Google Document for tracking- UAA/UAS not on gmail so doesn't have access to any Google Docs

- EAS putting together a website to track/enter task requests
- UAOnline search – break out the sessions – e-learning should not include all 0, 1, & 2 sessions codes
 - Line about searching All campuses being a “great way to find e-learning courses” is confusing. Does this mean only e-learning courses will pull in if you select All Campuses?
- Need to keep Enr Cap, Enr Act, WL Act, WL Rem, XL Rem
 - Drop WL Cap, XL Cap, XL Act
- Suggested Enrl Cap and Enrl Act as column headings to clarify
- Attributes on first page vs second page – should remain on the first page for quick viewing
- Group items in logical clusters – Mtg Day/Time/Location/Date
- Anna will finalize F2F agenda and sent out to everyone before the meeting

V. Adjourn

Next scheduled CCS meeting: October 4-5: F2F
