

Reg Team Audio
December 1, 2011- 2 p.m.

Attendees: Shelly (KPC), Mae (UAS), Patty (UAA), Susan (UAF), Lora (UAA), Maryjean (UAA), Libby (UAF)

Agenda Items:

Testing Banner Upgrade

- Class Schedule Search shows “view sections” but when clicking this button you get error message. (waiting for fix to be loaded, please go back for additional testing)
- Class Schedule Search- if search “all subjects” get no results
- Change Grade Mode- if you change grade mode and submit changes it does not move you from page.
- SOATERM is missing a box from web control section (nice catch Mae)
- Able to submit NODS but get terms to agree to, which is new (Patty will check into removing this)
- Able to roll approval codes once we found term where no codes were in.
- Able to update address (some can update email), etc
- Screens in Banner were going well.
- Main show stopper at moment is the class schedule search results. MAUS will not agree to move to PROD without this fix.

Class Schedule Search Issues

- UAA has had a few instances today with strange things occurring in UAOnline Class Schedule Search. In one case- no terms were displayed on “Class Schedule Search” on two other cases when student or staff selected “spring term” they got fall classes.

SOATERM

- Patty will be sending message to be very careful about making changes in SOATERM since it impacts all campuses.

Next Meeting- December 15th at 2 p.m.
