## Notes to the University of Alaska Approved Operating and Capital Budgets Fiscal Year 2025

This publication was prepared by the University of Alaska System Strategy, Planning, and Budget Office. It presents the University of Alaska's actual and budget information in accordance with the State of Alaska reporting requirements. This report includes revenue by funding source and expenditures by NCHEMS for the fiscal years ended June 30, 2023 and June 30, 2024 and the management plan authorized budgets for the fiscal year ending June 30, 2025. The UA audited financial statements can be found at <http://www.alaska.edu/fund-accounting/>.

1. License Plate Revenue is pass-thru funding for Alumni at Anchorage Campus, Fairbanks Campus, and Juneau Campus. In Banner, the actuals occur at the campus, but the state requires it be reported in the Systemwide Component (SYSBRA) where it is appropriated. Revenue fund (1234 DGF) was established in FY15 to record UA Alumni License Plate revenue. In FY18 the appropriation was moved from the language to the numbers section of the operating bill.
2. In accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, as amended by GASB Statement No. 35, Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities, the university is required to report student tuition and fee revenue net of allowances and discounts.

The tuition allowance is defined as the difference between the stated price for tuition and fees (and room and board) and the amount(s) paid by the student or directly by third parties on the student's behalf (e.g. Scholarships, Federal Aid, etc.). In other words, the allowance is the amount of institutional resources provided to the student for tuition. One of the benefits in recording the tuition allowance is the elimination of the double-counting of revenue previously inherent in university fund accounting. This occurs when Pell grants, for example, are recorded as both federal receipts and as tuition revenue.

From an accounting budgetary perspective, the effect of recording the tuition allowance (as compared to years prior to FY03) is a reduction in student tuition and fee revenue (unrestricted funds) and an equal reduction in student aid or miscellaneous expense (restricted funds) at the allocation level. These transfers between unrestricted revenue and restricted expenditures cause unrestricted expenditures in the Scholarship NCHEMS category to show as a negative number when reported separately.

3. Prior to the FY18 publication, Unrestricted Expenditures/Encumbrances included Unrestricted (10) and Designated (15) fund types. Throughout this publication, Unrestricted Expenditure/Encumbrances include Unrestricted (10) fund type only.
4. The State of Alaska budget system (ABS) requires financial reporting in the hundreds of dollars. This may cause minor rounding disparities between this publication and other reports.
5. UA reports several program receipts together (see University Receipts under Designated Funds in Appendix C). Actual revenues by funding type are balanced to expenditures using university receipts (SBS code 1048). University receipts are used exclusively in order to preserve activity in other revenue sources (e.g. student tuition/fees, indirect cost recovery, etc.). This practice may cause the sub-category for university receipts to show as a negative. The University Receipts grouping for State reporting will remain positive.
6. Lapse of State Appropriations: Alaska Statutes 37.25.010 (c) provides that unexpended balances of one-year appropriations will lapse on June 30 of the fiscal year of the appropriation; however, the University receipts in excess of expenditures may be expended by the University in the next fiscal year. University receipts include student tuition and fees, donations, sales, rentals, facilities and administrative cost recovery, investment earnings, auxiliary and restricted revenues. The unexpended balances of capital appropriations are generally reviewed after five years or lapse upon a determination that the funds are no longer necessary for the project.

Notes: Continued:

7. In FY24 all TVEP funding was moved from the numbers section to the language section of the bill. This is a technical adjustment, no impact to the program process is expected. In FY25 the State of Alaska Department of Labor (DoL) final projection for UA's allocation is \$6,634.6 (fiscal note projection \$7,205.5). Of the \$1,054.5 held in SYSBRA, \$483.6 will be distributed once funding decisions have been finalized and \$570.9 will lapse.

**Notes:**

September 24, 2024

- (1) The Department of Revenue's (DOR) Spring 2024 oil forecast for FY25 is 484,200 barrels per day total Alaska production at \$78 per barrel.
- (2) Carryforward is money that was appropriated in a prior year that is made available for spending in a later year via multi-year appropriations. Repeals increase revenue by reducing prior year authorization. Reappropriations to operating budget funds are counted as UGF revenue.
- (3) Restricted revenue equals spending for each category. Designated general funds include 1) program receipts that are restricted to the program that generates the receipts and 2) revenue that is statutorily designated for a specific purpose. Other funds have stricter restrictions on usage, and federal funds originate from the federal government and can be used only for a particular purpose.
- (4) Duplicated authorization is in the budget twice, such as when funds flow in and out of a holding account or one agency pays another for services provided. Duplicated authorization also includes the expenditure of bond proceeds when debt service on bonds will be reflected in future operating budgets.
- (5) The FY24 budget appropriates up to \$190.3 million to energy relief from FY24 revenue, to be paid out in FY25, based on the amount of revenue actually received during the fiscal year. The full amount would be paid out under the Spring 2024 revenue forecast. \$143.5 million of this funding is in line 29, with the remaining \$46.8 million in line 35. The FY25 Enacted budget includes a provision that if revenues exceed DOR's Spring Revenue Forecast by over \$135 million, excess revenues will be split in half between the Statutory Budget Reserve and a deposit into the dividend fund. The dividend fund appropriation would occur at the end of FY25 and would be distributed as an energy relief payment in FY26 in addition to the FY26 PFD. The entire appropriation is capped at \$645 million (of excess revenue), and any further revenues would entirely flow into the CBR.
- (6) Including duplicated fund sources in the amount of capital spending provides a valuable measure of "money on the street" because it includes projects funded with bond proceeds and other duplicated fund sources.
- (7) The "Pre-transfer Surplus/(Deficit)" indicates if projected state revenue is sufficient to pay for the budget before using money from savings or non-recurring revenue sources. If projected state revenue is projected to be insufficient indefinitely, it is often referred to as a "structural deficit."
- (8) "Fund Transfers" refer to appropriations that move money from one fund to another within the Treasury. Although transfers are not true expenditures, they reduce the amount of money available for other purposes so must be included in the calculation of the surplus/deficit. For reserve accounts, a positive number indicates a deposit and a negative number indicates a withdrawal. When money is withdrawn and spent, the expenditure is included in the operating or capital budget, as appropriate. For example, the appropriation to transfer court filing fees from the general fund to the civil legal services fund.
- (9) The FY25 Enacted budget appropriated the amount necessary for the Alaska Capital Income Fund (ACIF) to have an unobligated balance of \$0, estimated to be \$16 million from the general fund to the ACIF. Based on the FY23 Alaska Comprehensive Financial Report, this appropriation was no longer necessary, so the FY24 Supplemental budget repealed the transfer.
- (10) No appropriation from the CBR to cover a general fund deficit was enacted for FY24 or FY25.

## FY25 Appropriation and Allocation Structure

The University of Alaska has a single appropriation structure. For organizational and managerial purposes, the university's budget is grouped into Results Delivery Units (RDU) with related components (allocations) as outlined below. The legal effect of this structure is that budget controls are established at the allocation level, but adjustments can be made between those allocations with the concurrence of the Office of the Governor through the revised program process. The Management Plan scenario allows agencies to adjust their budgets and reflect management decisions in allocating staff and funding to implement their current year programs and services within their existing budget. These budget adjustments are called revised programs.

Categories & Descriptions**

## Revenue and Expenditure Categories and Descriptions

### **State Fund Groups<sup>1</sup> and University of Alaska Revenue Descriptions**

The following state fund groups (Unrestricted General Funds, Designated General Funds, Federal Funds and Other Funds) are used to summarize budget activity and indicate the level of discretion over the use of the funding. The revenue descriptions are the University of Alaska's definitions of funding sources within each fund group.

**Unrestricted General Funds (UGF):** As the name indicates, there are no statutory designations or restrictions on funding included in this group. Funding in this group can be (and is) appropriated for any purpose.

- **General Fund:** Monies received from the general operating fund of the state are used to finance the general operations of the university. Includes revenues with SBS code 1004.
- **General Fund Match:** Monies received from the general operating fund of the state, specifically authorized for funding matching requirements of restricted funds and are reserved for these purposes exclusively. Includes revenues with SBS code 1003.
- **GF/Mental Health:** GF/Mental Health revenues help fund the Masters of Social Work program at UAA as well as other programs approved by the Mental Health Trust. These programs provide a specialized curriculum for working with the beneficiary groups of the Mental Health Trust Authority and Alaska Native populations, providing an in-state avenue for social workers in Alaska to earn a Master's Degree. These degrees are required for licensing for many federal and state positions, including clinical social workers. Licensed clinical social workers are the primary providers of mental health services in much of Alaska, particularly in communities served by and dependent upon community mental health centers. Includes revenues with SBS code 1037.

**Designated General Funds (DGF):** Although the Constitution prohibits the dedication of funds (with a few exceptions) and the Governmental Accounting Standards Board indicates that all state funds are technically part of the general fund, the legislature has statutorily designated some revenue sources for a specific purpose. For instance, by statute, § 37.05.146 (b)(2) program receipts for the University of Alaska (as defined in AS 14.40.491) are accounted for separately and appropriations from these program receipts are not made from the unrestricted general fund.

- **License Plates:** Fund was established in FY2015 to record UA Alumni License Plate revenue. Includes revenues with SBS code 1234.
- **Technical and Vocational Education:** Since 2001 Senate Bill 137 (established in 2000 by SB289), has provided Technical Vocational Education Program (TVEP) funding to be used for workforce development (WFD) programs at UA. Includes revenues with SBS code 1151.
- **Higher Education Investment Fund:** The fund consists of money appropriated to the fund: investment income; donations; and surplus amounts available for awards under AS 14.43 (Financial Aid Programs for Postsecondary Students). In FY2025-FY2027 the legislature appropriated up to \$12.5M to UAF, primarily for graduate student fellowships in support of achieving R1 status. Includes revenues in SBS code 1226.
- **University Receipts:**
  - **Interest Income:** Interest Income includes revenue generated from short-term investments of grant receipts and auxiliary enterprise receipts. Includes revenues with SBS code 1010.
  - **Auxiliary Receipts:** Auxiliary Receipts include all revenues associated with self-support activities such as the bookstore, food service and housing operations. Includes revenues with SBS code 1015.
  - **Student Tuition/Fees:** Student Tuition/Fees includes revenues generated from tuition charged to students for instructional programs as well as fees charged in support of specific activities such as material, lab, activity and health center fees. Student tuition and fee revenues and certain other revenues from students

## Revenue and Expenditure Categories and Descriptions

are reported net of scholarship allowances. Scholarship allowances are the difference between the stated charge for tuition and room and board provided by the University and the amount paid by the student and/or third parties making payments on the students' behalf. Includes revenues with SBS code 1038.

- **Indirect Cost Recovery:** Indirect Cost Recovery (ICR) revenues are generated from federal and other restricted grants and are used to help offset administrative and support costs that cannot be efficiently tracked directly to grant programs. ICR rates vary according to rates audited and approved by the university's cognizant federal oversight agency. Includes revenues with SBS code 1039.
- **University Receipts:** University Receipts include restricted revenues received from corporate sources, private donations, and local governments, as well as revenues received from publication sales, non-credit self-support programs, recreational facility use fees and other miscellaneous sources. Includes revenues with SBS code 1048.

**Federal Funds (Fed):** Contains funding received from the federal government and the legislature has limited discretion over the use of this funding. Typically, federal funds must be spent as specified by the federal program.

- **Federal Receipts:** Federal Receipts include most revenues received from the federal government. These include restricted federal grants from such agencies as the National Science Foundation, U.S. Small Business Administration, U.S. Dept. of Defense and other federal agencies, as well as federal funding for student financial aid and work-study programs. Includes revenues with SBS code 1002.
- **COVID-19 Federal Receipts:** Late in FY21 OMB established a new SBS code (1265) to track COVID related Federal funds. Since most UA funds used to record COVID activities were already in use throughout FY21 it was deemed best to adjust for the new code during the OMB reporting process rather than in Banner.
- **Federal Receipts-ARRA:** Federal Receipts received from federal agencies related to the American Recovery and Reinvestment Act of 2009 (ARRA). These include restricted federal grants from such agencies as the National Science Foundation, Department of Health and Human Services, National Institutes of Health and other federal agencies, as well as additional federal funding for student financial aid and work-study programs. Except for Pell Grants and Federal Work Study Grants, which are part of the Operating Budget, authority for ARRA receipts are contained in the Capital Budget. Includes revenues with SBS code 1212.

**Other Funds (other):** Contains fund codes over which the legislature has limited discretion. It also includes duplicated funding (such as interagency receipts).

- **State Inter-Agency Receipts:** Contractual obligations between state agencies use University account code 9330 only. In FY10, ARRA funds became available from the Federal Government and may be passed through to the University of Alaska on an RSA. These funds would be identified by University account code 9332, but will roll up to State Inter-Agency Receipts on all state reports. Includes revenues with SBS code 1007.
- **MHTAAR:** Mental Health Trust Authority Authorized Receipts directed toward University of Alaska projects and programs in support of initiatives of mutual interest to the Trust, the University and the Alaska Health Workforce Coalition. Includes revenues with SBS code 1092.
- **CIP Receipts:** Capital improvement project (CIP) receipts are generated by chargeback to capital improvement projects to support CIP personal service administrative costs. Includes revenues with SBS code 1061.
- **UA Intra-Agency Receipts:** All internal charges for services provided by central service departments to other university departments. This includes services such as physical plant work orders, printing and computer repairs, and certain administrative functions such as risk management and labor relations. Includes revenues with SBS code 1174.

### Fund Types<sup>2</sup>

The University of Alaska uses the following four primary fund classifications:

- **Unrestricted Funds:** Unrestricted funds are current funds available for use within the current operating period (i.e. fiscal year) for which there is no apparent use restriction. Includes revenue with fund type 10.
- **Match Funds:** Match funds are a hybrid fund type between unrestricted and restricted; while they are an integral part of restricted program management, the funding for them derives from unrestricted sources. They are subject to the rules associated with restricted funds, UA accounting regulations associated with unrestricted funds and are also included as part of the reporting requirements to the sponsoring agency. Includes revenue with fund type 14.
- **Designated Funds:** Designated funds are unrestricted current funds that have internal restrictions but do not meet the accounting guidelines for restricted funds. Funds for UA Scholars is an example of designated funds. Includes revenue with fund type 15.
- **Restricted Funds:** Restricted funds are current funds received by the university but are limited to specific projects or purposes by grantors, donors, or other external sources. Includes revenue with fund type 20.
- **Auxiliary Funds:** Auxiliary funds are unrestricted current funds of enterprises that furnish services directly or indirectly to students, faculty, or staff and which charge fees directly relating to, but not necessarily equal to, the costs of the services. Bookstores and housing systems are examples of enterprises that generally meet the accounting criteria for classification as auxiliary enterprises. Includes revenue with fund type 30.

### State Expenditure Categories (Natural Classifications)<sup>3</sup>

The State requires agencies to report actual and budgeted expenditures in specific categories. The State's definition of these categories is as follows:

- **Personal Services (UA Salaries & Benefits):** Proposed expenditures for the staffing costs of the budget request unit or allocation. The costs include salaries, premium pay and benefits for all permanent and non-permanent positions. Includes expenditures with SBS code 71xxx.
- **Travel:** Proposed transportation and per diem expenditures incurred while traveling on authorized state business and proposed expenditures associated with the moving or relocation of an employee. Includes expenditures with SBS code 72xxx.
- **Contractual Services:** Proposed expenditures for services provided by a third-party including communications, printing and advertising, utilities, repairs and maintenance, equipment rentals and lease/purchases, judicial expense, professional services, and data processing chargeback costs. Includes expenditures with SBS code 73xxx and 78xxx (except for those with UA account code 8451; see Miscellaneous).
- **Commodities:** Proposed expenditures for the purchase of items normally consumed or expended within one year of being acquired or equipment purchases valued under \$5,000. Includes expenditures with SBS code 74xxx.
- **Capital Outlay (Equipment/Land/Buildings):** Proposed expenditures for the purchase of durable items with a unit value between \$5,000 and \$25,000. Includes expenditures with SBS code 75xxx.
- **Grants/Benefits (UA Student Aid):** Funds disbursed by the state to units of local government and to individuals in payment of various benefits and claims. Types of grants include: Designated, Municipal, Named Recipient, Unincorporated, Competitive, Grants to Individuals, etc. Includes expenditures with SBS code 77xxx.

## Revenue and Expenditure Categories and Descriptions

### **State Expenditure Categories (Natural Classifications) (continued):**

- **Miscellaneous (UA Debt Service):** This line item is used for expenditures that are not specifically covered by other line items. For budget and actuals, UA uses this line item for debt service payments only. Budgets are based on UA Fund Accounting's debt schedule; actual expenditures are reported using UA account code 8451 (SBS code 78xxx).

### **NCHEMS Descriptions<sup>4</sup>**

Through the definition and usage of program codes, the University of Alaska classifies all expenditures into standardized categories that are nationally recognized and utilized by most institutions of higher education. These categories, which were published by the National Center for Higher Education Management Systems (NCHEMS), are described below:

#### ***Instruction and Student Related:***

- **Academic Support:** The academic support category includes expenditures related to academic administration and governance to the institution's academic programs; academic program advising; course and curriculum planning, research, development and evaluation, including faculty development; and academic computing, including regional academic mainframes and the student micro-computer labs.
- **Instruction:** The instruction service category includes expenditures for all activities, which are part of the system's instruction programs. Instructional services include all credit and non-credit courses for academic and vocational instruction.
- **Intercollegiate Athletics:** Intercollegiate athletic sports are organized in association with the NCAA or NAIA. The intercollegiate athletics category includes expenditures for the necessary support staff associated with the athletic programs.
- **Library Services:** The library services category includes expenditures for services, which directly support the collection, cataloging, storage and distribution of published materials -- periodical, subscription and book holdings, microfiche and other reference technology aids and inter-library bibliographic access through networks such as Online Computer Library Center (OCLC) and Alaska Library Network.
- **Scholarships:** The scholarships category includes scholarships and fellowships in the form of grants to students, as well as trainee stipends, prizes and student awards.
- **Student Services:** The student services category includes expenditures related to admissions, the registrar, and those activities whose primary purpose is to contribute to the students' emotional and physical well-being and to their intellectual, cultural, and social development outside the context of the formal instruction program. Student services include social recreational and cultural activities; counseling services which include personal, career guidance and placement, and vocational testing; student health medical services; financial aid management and student employment; student admissions, registration, and student records administration; and student recruitment marketing and counseling.

#### ***Other:***

- **Auxiliary Services:** The auxiliary services category includes expenditures for conveniences and services needed by students to maintain an on-campus, resident student body. These services include resident student housing, food service dining halls, retail stores' operations such as the bookstore and vending machines, and specialized services such as childcare.

## Revenue and Expenditure Categories and Descriptions

### ***Other (continued):***

- **Institutional Support:** The institutional support category includes expenditures related to executive services and other institutional support functions. These services include the following: the office of the President, chancellors' offices, business offices, accounting, budget, EEO/AA, educational properties management, facilities planning and construction, finance, human resources, information services, institutional research, internal audit, investment properties management, legal counsel, payroll, procurement, records, risk and hazardous materials management, systems maintenance, university relations, support for the assemblies and the Board of Regents.
- **Physical Plant:** The physical plant category includes expenditures related to plant administrative services; building maintenance services including routine and preventative repair and maintenance of buildings and structures; remodeling and renovation projects; custodial services including janitorial and elevator operations; landscaping and grounds maintenance services; utilities services including electricity, heating fuel, garbage and sewage disposal; and specialized safety and code compliance management services including campus security and hazardous materials management. Also included are expenditures for fire protection, property insurance and similar items.
- **Public Service:** The public service category includes expenditures for activities whose primary purpose is to make available to the public the various unique resources and capabilities of the university in response to a specific community need or problem. The major public service units are the Cooperative Extension Service, KUAC Radio and TV, small business development programs and other community service programs produced in cooperation with community organizations and local governments.
- **Research:** The research category includes expenditures for activities directly related to scientific and academic research. The majority of the research is funded by non-general funds.
- **Unallocated Authority:** The unallocated authority category is not part of the standardized NCHEMS categories used by other institutions of higher education. It is a special category created by the University of Alaska to hold additional budget authority separate from other NCHEMS until such a time as it is needed.

<b>FY97</b>	(In FY97, the UA requested \$3.5 million GF for full funding for covered and non-covered employees. The Governor's amended budget included \$2.6 million GF, which represented full funding for covered employees but only an amount equivalent to 1.5% for non-covered employees. This latter amount was combined with salary increases for State of Alaska employees, and was then appropriated in its entirety to the Office of the Governor to be transferred out to agencies. However, the legislature reduced the total amount appropriated for all these needs by approximately \$1.7 million for anticipated savings for RIP and other changes to the retirement system. As a result, the amount to be distributed to the university was reduced from \$2,556.9 to \$2,183.2, necessitating an internal reallocation of approximately \$1.3 million to cover the balance of the cost of FY97 salary increases.) The Governor's request included a base adjustment for only \$540.3 GF (\$925.8 total funds) of this request, an amount which was to represent a 1.5% adjustment instead of 2.6% as called for in BOR policy. Since the base adjustment was subsequently reversed as an unallocated reduction, the amount included in the Governor's base adjustment was moot. However, during the legislative session, the Legislature agreed to include the difference between the amount originally requested by the BOR (\$936.6 GF) and the amount included in the Governor's base adjustment (\$540.3 GF) in its end-of-the-session funding for contract employees in the amount of \$396.3 GF, \$282.7 non-GF.)	396.3	SLA97/Ch100/P33/L19

The University will seek an appropriation for an adjustment to the across the board compensation increase for bargaining unit members equal to the percentage by which a request for an appropriation for an across the board compensation increase for University of Alaska employees outside the Local 6070 bargaining unit exceeds the across the board increases set forth in this agreement for Fiscal Year 2026. The request will be calculated based on the fiscal year of the contract for which the request arises and is limited to across the board increases. For example, if, during the term of this agreement, the University sought an appropriation for a three percent (3%) across the board increase for non-bargaining unit members for Fiscal Year 2026 of this agreement, the University would also request an additional one-quarter percent (0.25%) increase for bargaining unit members for Fiscal Year 2026.

There are no one-time lump sum payments included in this contract. However, the University will seek an appropriation for any across the board one-time lump sum payments for bargaining unit members equal to the dollar amount per employee by a request for appropriation for an across the board one-time lump sum payment for University of Alaska employees outside the Local 6070 bargaining unit is made during the term of this agreement.

To the extent any such requests are rejected, barred, or not otherwise paid or appropriated by the Legislature, the University shall have no obligation under this provision.

<p>In lieu of one-time capital funding, UA is pursuing a legislative strategy for consistent annual state funding to the "University of Alaska Major Maintenance and Modernization Fund". A modest revenue stream of \$35 million annually would bring UA greater financial stability, with historical appropriations and funding levels signifying broad support by the State of Alaska. Legislation will be proposed to establish a UA Major Maintenance and Modernization Fund and spending would be limited to projects on UA's approved projects list. To optimize the impact of the funding, project financing scenarios would consider cash and debt payments based on market conditions and the projects to be funded.</p>
